Mayor Recommends Position of Chauffeur, Board of Supervisors.

The following was read by the Clerk:

San Francisco, Cal., January 2, 1929.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, California.

Gentlemen: Pursuant to the communication addressed to me by the Clerk of your Honorable Board, under date of December 28, 1928, requesting the creation of an additional position of chauffeur for service by the direction of the Board of Supervisors, I have personally investigated the need for such service and concur in the request of your Honorable Board in the creation of this additional position.

Very respectfully yours,

JAMES ROLPH, JR., Mayor.

Ordered *filed*.

Relative to San Francisco's Participation in Pasadena's Rose Tournament.

The following was presented and read by the Clerk:

January 2, 1929.

Hon. Milo F. Kent, 40 Montgomery, San Francisco.

Dear Mr. Kent: The Tournament was a great success, and especially so in the matter of San Francisco's entry in the parade.

I was with the judges all morning (you will remember that I handled

the Tournament for three years as manager), and there was great hesitancy in awarding the sweepstakes to Glendale. I believe two of the board of judges would have given San Francisco sweepstakes for the whole parade were it not that the Glendale entry was more in line with the motif of the parade, which was designed to bring out as many floats picturing poems in flowers as possible.

You will be pleased to learn that the actual decoration and the pains in designing, to which your artist went, was beyond praise in the minds of the judges, and I believe that by the use of more money San Francisco can have the honor of a sweepstake prize in this great line sometime in the future. You certainly have the best floral decorator on the Pacific Coast, which, undoubtedly, means in the world; and I am very proud when I remember that I was the first one to introduce him to this kind of work.

Mr. Hall was kind enough to have a touring car beautifully decorated in pink roses and huckleberry for you, and was very sorry, indeed, that you could not occupy the car, which went in the first division, along with other officials and guests. Mr. Gallagher occupied the car. Mr. Hall and I were very sorry that we could not get a banner for this car, as he says he did not know you wanted to ride in the parade until I had suggested it on Sunday night. Those who painted the banners could not make and paint one in the closing few hours. The whole idea of the decorated car came to Mr. Hall's mind at the last moment, but I am sure in the future provision will be made if they are positive the car will be fully occupied.

Mr. Hall sent a note to you which I hope Mr. Shannon will deliver. It indicated his pleasure in being able to serve the Supervisors of San Francisco in very cordial terms.

I was on the line, making up several of the divisions, and heard at least 20 of the men who have been associated with that great show for the past 10 or 20 years indicate their choice for San Francisco. We should be very careful hereafter to conform as much as possible with the theme of the parade as the judges are compelled to base a very large percentage of credit on conformity with the definition of each parade.

The highest award in the parade, outside of the sweepstakes, went to San Francisco on the verdict of the judges in giving you first award in class A. The competition was very keen, as Long Beach and other big towns put in floats which must have cost considerable money and showed great attention to detail. I think San Francsico is to be highly congratulated, and you will undoubtedly receive a very handsome sterling silver trophy to place with the others on display. Many of the Tournament officials asked me to tell you how sorry they were that you could not appear.

I think everything was carried out to the satisfaction of the San Francisco visitors.

Sincerely,
SAN FRANCISCO CONVENTION & TOURIST LEAGUE,
MALCOLM A. FRASER,
Secretary-Manager.

Consideration of the Matter of the Appointment of Bridge Directors—Supervisor Havenner's Resolution.

Resolution No. ———— (New Series), as follows:

Whereas, this Board of Supervisors did, pursuant to the provisions of an Act of the Legislature of the State of California entitled "An Act to provide for the incorporation and organization and management of bridge and highway districts," by resolution duly adopted on the 24th day of December, 1928, appoint six residents of the City and

County of San Francisco directors of the Golden Gate Bridge and Highway District; and

Whereas, four of said six persons so appointed were, at the date of their respective appointments, and now are, holding office, either as officials of the City and County of San Francisco or of the United States; and

Whereas, there has been a widespread and well-defined objection voiced to the fact that a majority of the directors of said bridge and highway district appointed from San Francisco have been persons who are already holding public office; now, therefore, be it

Resolved, That this Board of Supervisors does hereby respectfully call upon the four persons heretofore appointed as directors of said bridge and highway district, who were at the date of their respective appointments holding other public office, to resign as directors of said bridge and highway district, and that upon said resignations being tendered they be forthwith accepted, and that consideration be then given to the appointment of the successors to said persons so resigning.

Supervisor Shannon: Mr. Mayor, I would like to have the floor on a question of personal privilege.

The Mayor: Go ahead.

Supervisor Shannon: Mr. Mayor, I desire to make a statement, I trust that you will see that I will not be interrupted. I may have to mention names and when I get through I will listen, without interruption, to anything that may be said. You realize that the only information I have regarding the present situation is what I have learned from the papers while in Los Angeles. I left Los Angeles at noon yesterday and arrived in San Francisco this morning. I notice in the press that a statement had been made that some conferences were held at which Mr. Hirschberg was present. I, like most all of the members of the Board, am acquainted with Mr. Hirschberg. I have not seen or talked to Mr. Hirschberg for three weeks. The last time I saw him was in a restaurant on Montgomery street, and he was with several other gentlemen, and I simply passed the time of day with him. At no conference of the Public Utilities Committee was Mr. Hirschberg present, and at no time did I talk with Mr. Hirschberg about the directors for the Golden Gate Bridge and Highway District, personally, by telephone or in no communication of any kind. The press also stated that a conference was held in my office. It is true the Public Utilities Committee was to have a meeting with the City Attorney on Wednesday, previous to the introduction of the resolution that recommended the appointment of the directors, at 2 o'clock. And when we arrived there we found that, through some error, the same hour had been set for a hearing with the officials of the Spring Valley Water Company relative to taking over the properties of the Spring Valley Water Company on the 1st of February. And we sat in at that conference. That conference lasted until about quarter of five, and after that the Public Utilities Committee conferred with the City Attorney regarding the purchase of the California Street Railway. That lasted until almost 6 o'clock and I said to Mr. Roncovieri and Mr. Stanton, "I would like very much, now that the hour is late, that this matter be postponed, and if it is convenient to you, I would like very much to have you meet in my office, you are down town, Mr. Stanton, Mr. Roncovieri, you have your office down town, my office is a central point and I would like very much to have a meeting at that office." We all agreed. And we held that meeting and nobody but Mr. Roncovieri, Mr. Stanton and myself were present at the meeting.

Some four or five days before Mr. Kent introduced the resolution, rather making the motion that five directors be appointed to the Golden Gate Bridge and Highway District, Mr. Havenner said to me that he thought that on account of his attitude on matters of public ownership, municipal ownership, he should be a director in that bridge and highway district. I remember it distinctly, Mr. Mayor and members of the Board, because it got under my skin when I thought of

men like Mr. Welch, now Congressman, Mr. McSheehy, Mr. Roncovieri, Mr. Deasy, the late Mr. Badaracco and myself making the fight on this Board for public ownership and the fight against the sale of the Hetch Hetchy power to the Pacific Gas and Electric Company that made possible Mr. Havenner's election, and that he should think that he should have a preference on the directorate—I remember it distinctly. Later I learned that he wanted to get on there because of his position as chairman of the Finance Committee. Previous to this particular time, or rather after this making of the motion by Mr. Kent, the matter went on for practically a week. I thought possibly Mr. Havenner might change his mind. And I said to numerous people that if Mr. Havenner went on the directorate I thought that I was entitled to a membership on the directorate because all of the bridge matters are referred to the Public Utilities Committee, and that, as chairman of that committee I felt that I should be a member. Had Mr. Havenner not desired membership on that bridge committee my name never would have been submitted, and I dare say that the condition that confronts us today would not exist because I doubt if any member of this Board of Supervisors would have been presented by this committee. As late as 9 o'clock on the morning when the resolution was to be introduced and acted upon by this Board, on Monday, the morning of the meeting, I rang Mr. Havenner up and asked him if he desired membership on that directorate. He said he did. As chairman of the Finance Committee he felt that that was the place where he should be to look out for the financial interests of San Francisco. I told him that as chairman of the Public Utilities Committee, to which all matters pertaining to bridges under the rules of our Board are referred, I should have a membership on the directorate. He agreed with me and I agreed with him and the list came in here and I explained who each member of the proposed directorate was and it passed this Board unanimously.

Now, that is the story of how the thing happened and the condition that confronts us today. Now, Mr. Mayor and members of the Board, the condition that has been created as a result of the appointment of the Supervisors of this Board has undoubtedly influenced public opinion. I have not been in close touch with people to know just exactly what the individual opinions of my friends are. I read in the press that the people of the north are worked up. I read in the press that the people of San Francisco are worked up. I read where you, Mr. Mayor, had stated that it was liable to jeopardize the success of the bridge, that where the bridge may be built in five years it may be twenty-five and possibly never. I do not want to be any part of any condition of that kind. I feel that it is too great a project and it means too much to San Francisco and the entire north to have individuals on that board that might jeopardize the passage of the bonds, and I do not want to be any party to any condition of that kind. And as I have come to the conclusion that there is a possibility, that is my opinion, that there is a possibility that in the days to come the membership on that board of directors by members of this Board might jeopardize it, I here and now give notice that I resign as a director of that Golden Gate Bridge and Highway District, and I now move you, Mr. Mayor, and I trust I will get a second to it, that my resignation as such director be accepted by this Board.

Supervisor Andriano: I second the motion.

The Mayor: All in favor, please say aye.

Supervisor Shannon: Mr. Mayor, speaking for the motion, I would like to say further, that I have read in the press of what Mr. Stanton has said. I feel that the resolution that is to be considered this morning is untimely. I think that it should be withdrawn. It is my privilege to withdraw as a member of the directorate, but having once been appointed, I feel that it is unjust and intolerant that colleagues on the Board be asked to remove their fellow colleagues. If he feels that the best interests of San Francisco can be served by his membership on there, I say, let him remain, and I say, if he sees. in his wisdom, that

he should resign, let him resign. But let it be voluntary, do not put us all in the position of voting to take a man off of that directorate. He has done nothing. And I say that I will never vote for the passage of that resolution, but I sincerely trust that the members of this Board will accept my resignation.

Supervisor Havenner: Mr. Mayor, as Mr. Shannon perhaps does not know, at the last meeting of the Board I announced that I would submit my resignation as a director of the Golden Gate Bridge District. However, in view of the question that was brought out by your Honor at the last meeting, as to whether all of the proceedings thus far taken in connection with the formation of the district, and the participation of San Francisco in that district was premature, in view of the appeal made to the Supreme Court, it would seem to me that before any action was taken on resignations we should hear from the City Attorney and learn whether or not there have been any appointments. If there have been no appointments, of course resignations would be a meaningless gesture. And I would like to move, with the consent of my colleagues, that we hear from the City Attorney first as to his opinion concerning proceedings thus far looking toward the formation of the Golden Gate Bridge District.

Supervisor Shannon: Mr. Mayor, I am going to ask that my motion be acted upon. As you all know, I know nothing about what the City Attorney's opinion is. I came here as the result of a telegram that was sent by Mr. Dunnigan to the members of the Board. I know nothing about what was in Mr. O'Toole's mind, I know nothing about his opinion and, regardless of his opinion, I want to the members of this Board to act upon my resignation. My motion is before the Board, it is in order and I would like to have the roll call on it.

Supervisor Havenner: Mr. Chairman, I have no desire whatever to block the action on Mr. Shannon's motion, if it is in order. But it seems to me that the question whether it is in order or not is a legal question. I desire, at such time as it may be in order, to submit my own resignation. But I think that the chair's position is purely one of deciding on a legal question. If there are no appointments by action of this Board, then, of course, it would not be in order at this moment to accept resignations. If there are appointments then I desire to submit my own resignation.

The Mayor: Well, Mr. Havenner, a motion to resign or a motion to adjourn is always in order. It is like taking a horse to water, you cannot make him drink. And when you resign you accept it because you cannot make the man act if he does not want to act.

Supervisor Hayden: For the information of those that have just arrived—and we just came directly from the train to be here following your call—we would like to know what the parliamentary status is up to this moment.

The Mayor: Well, the parliamentary status is that Mr. Shannon has made a motion, seconded by Supervisor Andriano, that his resignation be forthwith accepted as a director of the Golden Gate Bridge and Highway District. Mr. Havenner has raised the point that we should wait to hear an opinion of the City Attorney, which brings forth a request from the Board asking if the filing of protests with the Supreme Court does not stay action of the Board, and that the appointment of the directors was premature, in view of the fact that these protests were filed with the Supreme Court. That is where it rests and I do not know what his opinion is. I just know that he is prepared to render a decision or opinion on that matter. The question before the Board is duly moved and seconded that Mr. Shannon's resignation be accepted. The chair rules a motion to resign is always in order like a motion to adjourn is in order.

Supervisor Hayden: Might I ask, are there any other resignations offered in the directorate?

Supervisor Havenner: Mr. Chairman, I would desire then to move at this time that the motion be amended to include my own resignation.

The Mayor: Any objections? It has been moved and seconded that the resignations of Supervisors Shannon and Havenner as directors of the Golden Gate Bridge and Highway District be immediately accepted. All in favor will please say aye.

Supervisor Hayden: Call the roll, Mr. Mayor.

The Mayor: Call the roll, Mr. Clerk.

(Roll call.)

Supervisor Andriano: Aye.
Supervisor Colman: Absent.
Supervisor Deasy: Absent.
Supervisor Gallagher: Absent.
Supervisor Havenner: Aye.
Supervisor Hayden: Aye.
Supervisor Kent: Aye.
Supervisor Marks: Aye.
Supervisor McGovern: Aye.
Supervisor McSheehy: Absent.
Supervisor Powers: Aye.
Supervisor Roncovieri: Aye.
Supervisor Schmidt: Aye.
Supervisor Shannon: Aye.
Supervisor Stanton: Mr. Chairman, I would like to be excused.
The Mayor: Excused.
(Roll call continued.)
Supervisor Suhr: Aye.
Supervisor Todd: Aye.
Supervisor Toner: Aye.
13 ayes; 1 excused; 4 absent.

The Mayor: The ayes have it, so ordered. (Bringing down the gavel.) What is the pleasure of the Board?

Supervisor Havenner: I would like to hear from the City Attorney now on the question that we submitted to him.

City Attorney O'Toole: The opinion is in the hands of the Clerk.

The Mayor: Any objections? So ordered.

The Clerk (reading): "January 3, 1929. Subject: Appointment of directors Golden Gate Bridge and Highway District.

Dear Sirs:

At the meeting of your Honorable Board, held on December 31, you asked that you be advised as to the effect of the writs of review issued by the Supreme Court to review the actions of the Superior Courts of the various counties within the proposed Golden Gate Bridge and Highway District, disposing of various protests against the inclusion of property in the district, and, in particular, what effect these writs have upon the action taken by your Board on December 24 appointing six persons to act on behalf of San Francisco as directors of the district.

Opinion.

An investigation shows that the Superior Courts of the counties of San Francisco, Marin, Sonoma, Napa and Mendocino did, on December 3, 1928, enter their respective judgments disposing of the protests filed by various persons against the inclusion of their lands in the proposed district and defining the boundaries of such district. These judgments were forthwith certified to the Secretary of State in conformity with the provisions of the Bridge and Highway Act, and on the 4th day of December, 1928, that official issued his certificate declaring that the district, with the boundaries as established, should be duly incorporated, and on the same date notified your Board of the formation of the district. On December 13, 1928, petitions for writs of review were filed in the Supreme Court by protestants from San Francisco, Sonoma, Napa and Mendocino counties, to review the decision of the Superior Courts of the counties last mentioned. On December 27 the Supreme Court directed a writ of review to issue in each of the cases mentioned, directing the said Superior Courts to certify all the proceedings taken

in the premises to the Supreme Court on Thursday, January 10, 1929. There is no stay of proceedings asked for in the petition, nor has any stay been granted in the writs issued. There being no stay of proceedings contained in the writs the issuance of the writs do not of themselves stay proceedings on the formation of the district, or the appointment of directors thereto, unless the Bridge and Highway Act itself indicates a contrary intention. See Section 1072 of the Code of Civil Procedure. 'Proceedings in inferior courts may be stayed or not. If a stay of proceedings be not intended, the words requiring the same must be omitted from the writ; these words may be inserted or omitted, in the sound discretion of the court, but if omitted, the power of the inferior court or officer is not suspended or the proceedings stayed.' "

Supervisor Marks: Are you quoting the section?

The Clerk: Yes, that is the end of the quote.

"In view of this express language of the code section regarding writs of review, I would be of the opinion, if it were not for the provisions of the Act itself, that the Secretary of State was within his rights when he issued the certificate of incorporation of the district. However, the language of the Act leads me to believe that he has acted prematurely. Section 3 of the Act provides for the filing of protests and for their disposition by the various Superior Courts of the counties within the proposed district. The same section provides as follows: 'Review by Supreme Court. The judgment of the said Superior Courts, when given, shall be certified by the Clerk to the Secretary of State, together with the original petitions and protests theretofore transmitted to him by the Secretary of State, and the said judgment shall not be appealable, and all questions of fact therein contained shall be final and conclusive upon the whole world, and shall only be subject to review by the Supreme Court of this State, upon a writ of review issued out of that court in such cases as writs of review are now permissible against Superior Courts, or the irregular exercise of the jurisdiction of such courts. Such proceedings for a writ of review must be taken within ten days after the entry of the judgment in the Superior Court, and, if not so taken, all judgments of the Superior Courts shall become final.'

'Certificate of Incorporation. When all the protests have been disposed of, as hereinabove provided, and the results of the judgments therein certified to the Secretary of State, the Secretary of State shall thereupon issue his certificate of incorporation declaring the said district, with the boundaries as finally established, to be duly incorporated, formed and organized, and shall file the same in his office, and cause a certified copy thereof to be recorded in the office of the County Recorders of each of the counties situated within or partially within said proposed bridge and highway district.'

Your attention is particularly directed to the fact that this language makes the judgments of the Superior Court final, subject only to a writ of review by the Supreme Court, and further provides that proceedings for the writ of review must be taken within ten days after the entry of judgments by the Superior Court. In the instant case the judgment was made on the 3d of December and application for the writ of review was filed on the 13th of the same month, so it was commenced within the time specified by the Act and must receive the attention of the Supreme Court. Your attention is directed to the language of the concluding paragraph of Section 3 of the Act: 'When all of the protests have been disposed of, as hereinabove provided, and the results of the judgments therein certified to the Secretary of State, the Secretary of State shall thereupon issue his certificate of incorporation declaring,' etc. The preceding paragraph makes the writ of review one of the methods, or, in fact, the final method, of disposing of the protests, and until the time within which the writ may be applied for has expired, or until the writ is disposed of, if issued, I am of the opinion that any certificate of incorporation issued by the Secretary

of State is premature. It appears to me that, while the Act makes no provision for a direct appeal to the Supreme Court from the judgment of the various Superior Courts, the writ of review is in lieu of the appeal and must be treated as such, and that the judgments only become final when the time for granting of the writ has expired or when the writ is disposed of, if granted. Note the language of the Act: 'Such proceedings for a writ of review must be taken within ten days after the entry of the judgment in the Superior Courts, and, if not so taken, all judgments in the Superior Court shall become final.' In other words, until the ten days have elapsed the judgment is not final. See Gilmore v. American Central Assurance Company, 65 Cal. 63, where the Supreme Court said: 'Where proceedings are pending for the review of a judgment, either on appeal or motion for new trial, the litigation on the merits of the case between the parties is not ended, and until the litigation on the merits is ended there is no finality to the judgment in the sense of a final determination of the rights of the parties.' See, also, Estate of Blythe, 99 Cal. 742; Holton v. Superior Court, 187 Cal. 661. Also Section 1049 of the Code of Civil Procedure: 'An action is deemed to be pending from the time of its commencement until its final determination upon appeal, or until the time for appeal has passed.'

In view of the foregoing, I am of the opinion that the certificate of the Secretary of State purporting to incorporate the district was prematurely issued and that it did not have the effect of incorporating the bridge and highway district, and that his notification to your Board of the formation of the district, given under these circumstances, did not vest you with authority to appoint directors to the district. The district in the instant case is akin to an irrigation district in a reclamation district. The courts have held that the law must be strictly followed or an irrigation district is not legally incorporated. In re Central Irrigation District, 117 Cal. 382. The court held that a notice setting the time of the meeting at which the petition for the organization of an irrigation district shall be presented shall be published is mandatory, and its publication is a prerequisite to conferring jurisdiction upon the Board of Supervisors to proceed in the matter of the organization. In Directors Fallbrook Irrigation District v. Abila, 106 Cal. 362, the court held that, where the law provided for the signatures of fifty landowners, forty-eight was not sufficient to authorize the Board to form the district.

The district, not having been properly incorporated, I am also of the opinion that the appointment of directors to it by your Board was a nullity, for the reason that there was no district properly organized to which they might be appointed.

You are also advised that, in my opinion, until the proceedings now pending before the Supreme Court to review the judgments of the Superior Courts on the formation of the district are determined, the Secretary of State cannot issue a valid certificate of incorporation to the district, and that when these proceedings are determined it will be incumbent upon him to issue a new certificate to it, notifying your Board anew of such incorporation, and that it will then be incumbent upon you to appoint six directors to represent San Francisco in the district.

In view of the fact that the conclusion which I have reached in this matter is one which affects not only San Francisco, but also many of the other counties within the district which have thus far made their appointments to the directorate of the district, and the question as to the proper incorporation of the district and the timely appointment of its directors is one which goes to the validity of every act of the directors, it would be well to obtain a decision of the Supreme Court on the question at the earliest possible moment. It occurs to me that, with the proper cooperation of all interested parties, it may be possible to have the Supreme Court give attention to this point in the present review proceedings. If your Honorable Board should desire

such a determination, I will be glad to cooperate if so advised. It may be possible that the court would not desire to express its views on this subject in the pending proceedings, but, at all times, it lies within the power of the Attorney-General, upon proper complaint being made, to issue quo warranto proceedings to test the legality of the existence of the incorporation of the district. Your Board has already taken action under the existing notice of the Secretary of State. If the district is not properly incorporated by reason of premature action of the Secretary, the appointments already made by you are a nullity and require no further action to undo the appointments so made. If the district is properly formed, the action already taken must stand.

Sincerely, John J. O'Toole."

Supervisor Stanton: Mr. Chairman, as I understand this now, the City Attorney is to join with Mr. Ornbaun, who is an avowed opponent of the Golden Gate bridge, somebody, a gentleman who has been fighting it from its inception, to join hands with him, to bring about a condition that will remove certain directors that are not satisfactory to some of the individuals in San Francisco. And while it is true that Mr. Ornbaun is representing certain citizens, it has been the general opinion of all concerned and all interested in the Golden Gate bridge that Mr. Ornbaun was representing big interests. That is, the lumber interests and the railroads. And I think that this Board of Supervisors at this time is instructing their City Attorney to join hands with this gentleman in order to frame something that might be satisfactory—is far beyond my comprehension. Surely, the mere selection of a few directors from San Francisco to serve on this board of trustees—not a one of them can anybody point to a blemish in their character as citizens nor in public life or otherwise—and still you are willing to go to any extent in order to remove two or three directors from that board. I cannot really understand what is behind it. Not a member of this Board, I believe, wants to change the directors. If it was left to them, free and open, to judge for themselves, as they did a week ago Monday, I am satisfied that they would not change one iota. And at that particular time there was no discussion and everybody was satisfied. The matter was not railroaded through, but a roll call vote was had and every member present voted with the exception of the three named. Now, I might say to you, Mr. Mayor and members of this Board of Supervisors, that, being a member of this board of directors does not mean so much to any individual. You have three meetings a month, that is, according to the law you are permitted to hold three meetings a month and not receive more than $60. My objection to the proceeding is that I have been elected by the Board of Supervisors, and there has not been one reason shown why I should resign or be removed, or any other member of that board of directors, not by any official act of theirs, or not by anything that they have done in the past, and still some people come and raise a big howl that, unless certain people get off of the board of directors, that the bridge will never be built. How impossible it is; how ridiculous it is. Was there anything said the week previous when Supervisor Kent brought in the names of five gentlemen, whom I have no particular quarrel with, presented it to the Board, went on for a week and not a word said, not one single world until the following Monday, when the committee brought in its report. And about Christmas Eve we saw articles appearing in the papers stating that the public was incensed and the public was demanding. The public really knew nothing about it. The public would never have thought anything about it, any more than they thought about the first resolution brought in by Supervisor Kent. The Board of Supervisors evidently did not give much thought to it. Each and every member that I have spoken to told me that he promised Congressman Welch that he would vote for him. Several of them told me that they thought Supervisor Havenner ought to be on it. That seemed perfectly satisfactory. Supervisor Havenner thought that he should be there, and I have no quarrel with him for

it, any more than any other member should feel that he would want to be there. It is human nature for a man to have ambition, it is human nature for a man to want to be into big things and doing the things, if he is in public life, that are going to be for the best interests of his community. And to brand him as being one that is blocking the wheels of progress because he has been selected by the people of the city, is far more than I can understand. Why, it seems, too, that we are getting to a place in San Francisco where it becomes criminal to be elected to an office, and where the minute that you are elected to an office public opinion is against you. How in the world are we going to run our government? How are we going to proceed if we live up to such ideals that the man selected by the people is not the one to handle the public affairs? What crime has anybody done that has been selected? What reason has anybody to foresee that the minute that they become appointed on a board of directors that they are going to be incompetent or immediately crooked? Is there any foundation for the whole upheaval? Is there any reason that a person elected to an office in San Francisco, trying to serve them honestly, should be branded as one blocking the wheels of progress, one who is attempting to stop the biggest thing that has ever happened in San Francisco, one of the biggest things that has ever happened in the world? I say no. To me, it would be a joy and a pride to serve on that Golden Gate Bridge Commission. It would be an everlasting satisfaction to me. If I did not go on I would shed no tears. But I was selected by this Board of Supervisors, fairly and honestly, and I feel that I am entitled to be dealt with honestly. And the way the matter has been brought about, the way it is being heralded and broadcast, why, you would think that I was a criminal for accepting, for daring to feel that I was capable or fitted to serve as one of its directors. You people have got to wake up in public office. You have either got to stand on your own legs as men, feeling that you are just as capable to handle all the affairs of your city, or else you can stay off the Board of Supervisors. You have got no right to represent the people feeling that you can go to a certain place and then must stop. There is no warrant for it, Mr. Mayor and members of this Board. I am not here begging or crying to anybody. I am standing on my feet as an American citizen, freeborn and in the city of my birth, with as much love for it as any individual that stands on two feet, from the pioneer stock, never did a thing that was in any way detrimental to San Francisco. And for me to say, "Well, for the best interests of the bridge, for the best interests of San Francisco, I resign." What does it mean? What would it mean? That I either considered myself incompetent, that I was a rogue, or that somebody had something on me that would tend to make me unfit for that position. And I am not going to do that. When the time comes that I want to resign, either from the board of directors, from the Board of Supervisors, or from any other board, I will do it of my own accord and not at any time when I am being jammed to do it, for no other purpose than to make room for somebody else. That is not the right way to do business, that is not the way to conduct the affairs of San Francisco. And I am saying to you now that a motion to rescind, I believe, is out of order. Roberts' Rules of Order say that no elective officer—that you cannot rescind the election of an officer. No motion was ever given to reconsider at the time of the election. So I am protesting at this particular time the entire proceedings. I do not know why you have brought the City Attorney into this matter. Surely, if Supervisor Kent's motion and list of directors would have gone over on the first day, nobody around the Board of Supervisors or San Francisco, that I know of, would have had the matter brought to the City Attorney to see if there was not something that he could do to capsize all of the procedure. Mr. Mayor, had this matter gone on in a natural way, had it gone on the same as one of your bridge districts, everybody getting up and doing their little bit, the bridge would have been in a

far better place. It would have been in a far better situation. The people would have had a lot more confidence in it. And when it comes to the selection of a board of directors, how are we going to select any board of directors, or who is there that is going to select any board of directors that will be satisfactory to everybody? I want to say, Mr. Mayor, and say it with no disrespect, to some of the individuals in San Francisco that seem to be placed on every commission, seem to be put on every advisory board, to me they are just placed on a pedestal as being the only three or four people in our community with honor, with ability, with sincerity enough to handle San Francisco's affairs. And that does not seem to be just the way San Francisco should be run, because the day is coming when the gentlemen might pass on and then we are going to be left in a place with nobody to represent us. And that is a serious situation. It does not seem to matter what comes up. Judge Matt I. Sullivan, who is a very decent person and I have the highest regard for him, is appointed on the committee, advisory board or whatever else it might be. Senator Phelan is placed on every committee that comes up. It is not a matter, Mr. Mayor, this is not, of Supervisor Shannon or myself, whether we are the right ones or not, it is whether we see the right people. If we had come from Mr. Boyen, if Mr. Boyen had put his O. K. on us, then, Mr. Chairman, there would have been no hesitancy in passing the list. And I do not see that that gentleman has done much for us. We have put him on the advisory committee, brought him from the San Francisco Labor Council, and he got us into the evaluation proceedings of the Pacific Gas and Electric Company, which has cost San Francisco many a dollar, and it is the biggest mistake the San Francisco Labor Council has ever made, when they sent him here. That is my opinion. And he has been the guiding hand around here, dictating the policy of the Board of Supervisors. And I am not ready to step down because I am not agreeable to him. I am not ready to step down because I am not agreeable to anybody else. If there is anything that is wrong, then I should never have been there. If the people of San Francisco have not confidence in me, then it is up to them to say so when I run for office again. But so far I have been elected and strive to serve them well. I am going to try to stand on my own feet and serve them as a free man without the yoke of anybody bearing on my shoulders. And I will do that as long as I am here, and then, if they want me out, it is up to the people. But I am not pleading guilty of crookedness, of ability, or in any way incompetent to handle the affairs of the Golden Gate bridge, and I protest this action today. It is directed and aimed at a few directors, men of high standing, and immediately another bunch will be placed in just as soon as the opportune time comes, that will be satisfactory to someone else.

City Attorney O'Toole: Mr. Mayor, may I address my remarks to Supervisor Stanton? Supervisor, I think that you must have misunderstood the purport of the suggestion which I made in my letter. It certainly was not my intention to convey to this Board any idea of joining with Mr. Ornbaun, or anybody else who is opposing the organization of the bridge district. To have this matter determined by the Supreme Court at an early date, or in the present proceeding, I would have to join with Mr. Harlan as much as I would with Mr. Ornbaun, to have the Supreme Court consider it. And the one idea that I had in mind was this question, which is, you may state, a debatable one, or might be a debatable one, or the Supreme Court might reach a different conclusion from the conclusion which I have reached, should be determined at the very earliest possible moment. I feel quite sure that Mr. Ornbaun would be perfectly agreeable to go through with the procedure he has at the present time, and leave this matter for some future day, and to have the Supreme Court determine it, but that will be just a further delay in the directorate of the bridge district, not only from San Francisco, but from the other counties functioning, and the one idea that I had would be not to join in the question of the

legality of the present bridge district, but to ask the court to determine whether or not the certificate was issued as prescribed by the act, and further than that I had no intention of joining with Mr. Ornbaun in any attack or asking the Board of Supervisors to authorize me to join in any attack upon this district as it has been organized.

Whereas, under and pursuant to the provisions of the act, last aforesaid, it is the duty of the said Board of Supervisors of the City and County of San Francisco to appoint six persons to act as members of the Board of Directors of said bridge and highway district; now, therefore, be it

Discharge of Park Employees, Kezar Stadium.

Supervisor Todd inquired of Supervisor Havenner, as chairman of the Finance Committee, if he could explain what he termed wholesale dismissal of employees of Park and Playground Commissions because of inadequate treasuries. He declared that the Park Commission had laid off 300 men in order to have funds to complete Kezar Stadium and that the Playground Commission had laid off many old employees to make room for imported labor was ordered yesterday by the Board of Supervisors.

Supervisor Havenner said he could explain the dismissals, that in budget allotments both the Park and Playgrounds Commissions had been granted the financial limit permitted under the Charter.

Supervisor Gallagher said: "I can give the unofficial explanation that I received when I first heard of these dismissals. The Board of Supervisors some time ago, after alloting the Park Commission as much money as the Charter would permit, appropriated an additional $250,000 for completion of Kezar Stadium. That money was tied up in a court action to determine the Supervisors' right to make the extra appropriation. It is still tied up. The Park Commission, anxious to complete the stadium, hit upon the expedient of dismissing a number of employees and using the money that would ordinarily go for their pay to finish the stadium. I don't know exactly how many men were dismissed, but at least 150 were dropped from the payroll."

Motion.

Supervisor Todd moved that the Secretary of the Park Commission be asked to appear before the Board and give the information required.

Supervisor Andriano moved as an amendment that the Park Commission be invited to appear at the next meeting and the matter be made a Special Order for 11 a. m.

Supervisor Havenner suggested that the Playground Commission be also invited.

Supervisor Andriano's motion *carried.*

Request.

Supervisor Toner moved that the Clerk obtain from the Playground Commission names of employees whether they are voters in San Francisco and how long and what pay they get.

So ordered.

Relative to Appointment of Delegation to Go to Washington on Bay Bridge Bill.

Supervisor Havenner declared that he had wired recently to Senator Johnson as to the advisability of sending a delegation of Supervisors to Washington to advocate the passage of the San Francisco Bay Bridge project and was advised that the matter could wait until Boulder Dam was out of the way.

Supervisor Havenner said that he sent another inquiry regarding early Congressional action and Senator Johnson answered in a personal letter today, saying that he believed the bill could be passed by the Senate during the present session. Senator Johnson further advised me that he did not believe it was necessary to send a delegation of citizens to Washington to help press the measure. Congressman Richard J. Welch was quoted as saying that he did not believe the bill could pass the House at this session and that action should be postponed.

Motion.

Supervisor Havenner moved that the Clerk send a telegram to Congressman Welch asking for an immediate opinion as to the possibility of action in the House of Representatives at the present session of Congress on the Johnson-Welch Bay Bridge Bill.

Supervisor Gallagher moved that the telegram state "that it is the opinion of this Board that we feel that we are under a public mandate to press this matter to a conclusion in the necessary channels, namely, the Senate and the House of Representatives, at the earliest possible date, keping in mind the advantageous position held by San Francisco in the premises, and that we trust that this matter can and will be presented to this session of Congress in an effort to secure favorable action by this present Congress thereon."

Motion *carried.*

Telegram.

Pursuant to the foregoing, the following telegram was thereupon sent to Congressman Welch:

Hon. Richard J. Welch, House of Representatives, Washington, D. C.

Board of Supervisors today adopted motion by Supervisor Gallagher instructing me to advise you that the Board considers itself under a public mandate to press for passage at the earliest possible date the bills introduced in Congress by Senator Johnson and yourself providing for a permit to construct a bridge between Rincon Hill and Alameda. The motion further expresses the hope that this matter can and will be presented at this session of the Congress in an effort to get favorable action thereon before the session ends. Will you be good enough to consult with Senator Johnson and advise the Board by wire when in your opinion representatives of San Francisco should proceed to Washington to support the passage of the bills. Senator Johnson has advised members of the Board that he is ready and willing to press the bill for passage in the Senate at any time and the Board is awaiting your advice as to the situation in House before adopting immediate policy with respect to bridge legislation.

JOHN S. DUNNIGAN, Clerk.

ADJOURNMENT.

There being no further business, the Board at the hour of 5 p. m. adjourned.

J. S. DUNNIGAN, Clerk.

Approved by the Board of Supervisors January 21, 1929.

Delegation to Washington on Transbay Bridge Bill.

On motion of Supervisor Shannon the following telegram, which was ordered sent to Congressman Welch at last meeting, was read by the Clerk:

Hon. Richard J. Welch,
House of Representatives,
Washington, D. C.

Board of Supervisors today adopted motion by Supervisor Gallagher instructing me to advise you that the Board considers itself under a public mandate to press for passage at the earliest possible date the bills introduced in Congress by Senator Johnson and yourself, providing for a permit to construct a bridge between Rincon Hill and Alameda. The motion further expresses the hope that this matter can and will be presented at this session of the Congress in an effort to get favorable action thereon before the session ends. Will you be good enough to consult with Senator Johnson and advise the Board by wire when, in your opinion, representatives of San Francisco should proceed to Washington to support the passage of the bills? Senator Johnson has advised members of the Board that he is ready and willing to press the bill for passage in the Senate at any time and the Board is awaiting your advice as to the situation in House before adopting immediate policy with respect to bridge legislation.

JOHN S. DUNNIGAN, Clerk.

Replies of Congressman Welch.

Telegram, Postal Telegraph Company.

Washington, D. C., January 8, 1929, 8:15 p. m.

John J. Dunnigan, Clerk of Board of Supervisors,
City Hall, San Francisco, California.

Chairman Parker of Interstate and Foreign Commerce Committee has informed me that Rincon Hill bridge and other contested bridge matters will not be considered during this short session of Congress. Mr. Parker demonstrated more friendly interest in bridge than at any time since project has been before Congress. He said that on account of opposition of War and Navy Departments he intended to take up matter with President Hoover. Mr. Denison, chairman of Subcommit-

tee on Bridges, without whom no bridge matters are considered, has been absent on leave for some time. I will gladly welcome and give full cooperation to representatives of San Francisco if they should decide to come to Washington. Mr. Hoover has heretofore indicated friendly interest in transbay bridge. I intend to take matter up with him at earliest opportunity. Why has not amended bill agreed on in conference with State officials providing State control been sent to me?

Telegram.

Washington, D. C., January 13, 1929.

Board of Supervisors, San Francisco, California.

Supplementing my telegram of January 8th, I have repeatedly requested that a number of positive militant representatives of San Francisco come here to assist me in campaign for Rincon Hill bridge. Records will show I made this statement when appearing before Board last summer at your request. I emphasized necessity of this plan of campaign at meeting in Governor's office last November. Meeting attended by Governor Young, members of State Highway Commission, Director Meek, Senator Johnson, Representative Kahn, Mayor Rolph and numerous city officials. I called attention to previous campaigns made by San Francisco before Congress when more enthusiasm was demonstrated by San Francisco officials and citizens than has been evidenced in effort to secure Rincon Hill bridge. Called particular attention to our successful fights for Panama-Pacific Exposition and Hetch Hetchy grant, when San Francisco sent the best she had to Washington, where they remained and gave the necessary help to their representatives in charge of bills. I also referred to absolute lack of cooperation in this uphill fight. I have appealed personally to Supervisor Havenner to head a delegation and bring John Dunnigan, who has been here before on similar missions, to assist me in presenting case to Committee on Interstate and Foreign Commerce, with whom bill is now pending. Not more than five of the twenty-three members of this committee have ever seen San Francisco Bay. This delegation could assist me in a canvass of the four hundred and thirty-five members of the House of Representatives in behalf of a bill that, at the present time, is absolutely opposed by two important executive branches of the government, the Army and the Navy. Such a delegation could at least overcome the active opposition campaign now being waged here by Captain Peterson and former Congressman McLafferty, representing Pacific American Steamship Association, Shipowners' Association and Waterfront Employees' Union. In recent interview I told Senator Johnson that passage of his bill in Senate would give prestige to my bill in House. I reminded him of Mayor Rolph's statement in Governor's office, when the Mayor quoted President-elect Hoover as in favor of bridge. This statement confirmed to me by Supervisor Havenner, who said he had heard Mr. Hoover so express himself. I told Senator Johnson that I will adopt any reasonable means to get the bridge. I will personally solicit Mr. Hoover's assistance. According to newspaper reports, Mr. Havenner urges immediate legislative action regardless of positive statement by Chairman Parker of Interstate and Foreign Commerce Committee that committee will consider no contested bridge matters during this short session, and regardless of Chairman Parker's friendly and un-

solicited offer to take up bridge matter with President Hoover because of War and Navy Department opposition, as related in my telegram of January 8th. I request that this telegram and telegram of January 8th be made a matter of record and printed in the Journal.

RICHARD J. WELCH, M. C.

Motion.

Supervisor Havenner moved that his Honor the Mayor be authorized to communicate by long distance phone with Senator Johnson and Congressman Welch and get from them their intimate view as to the desirability of sending a delegation at this time, and whether or not they can possibly obtain consideration at this session.

Supervisor Gallagher moved to add "that in any conversation or communication of the Mayor with the Senator or Congressman from the Fifth District, that he inquire as to the advisability of the inauguration on the ground in Washington or from San Francisco of a campaign of education of the members of Congress on the subject of San Francisco's right to this bridge and the passage of the bridge bill."

So *ordered.*

(Afternoon Session.)

Supervisor Shannon: Were you able to get in touch with Senator Johnson and Congressman Welch by telephone?

The Mayor: Both of them, yes. Gentlemen of the Board, you directed me, when we took a recess at noontime today, to communicate by telephone with Senator Johnson and Congressman Welch. This I did and had a very interesting and pleasing conversation with both of them at their offices at Washington. I talked with Senator Johnson first, although we got both of them at practically the same time. I talked to the Senator and told him of the discussion which took place here this morning, and that I was delegated to ask him his opinion about us sending on a delegation to assist the pushing forward of the bridge bill, and at the same time bring all of the efforts to bear that we could upon other influences that might help our bill in the house. He said he was very glad to hear it. He said that, so far as the Senate was concerned, why, the bill was in perfect shape and could be put through at any time, and that there was no need of anybody coming on, so far as the Senate was concerned, but he thought it would be helpful so far as the House was concerned. I thanked him. He sent his kindest regards to you all, and he sent his love to Matt Sullivan. So I do not get in wrong I will tell you everything that transpired. Mr. Johnson is well and he wished you all a happy new year. Within fifteen minutes later I was on the line with Congressman Welch. He likewise sent his compliments to you all and asked how you were all getting along and sent his best to Mrs. Rolph and I sent my best to Mrs. Welch, and he said she is in California, and I said we can get in touch with her there. So he sent his best to all of you. He said he had been making earnest pleas, and made an especially earnest plea at a meeting in the Governor's office referred to this morning, to have help sent to him. He said Captain Peterson and former Congressman McLafferty are there and they are holding up everybody. When we were on there last spring there was only one or two shipping interests against the bridge bill. Now it appears, from the way Captain Peterson and former Congressman McLafferty are working, they have got pretty near all the shipping interests working in opposition to the bill. And he pleads with you to send somebody on right away to work in the House, as Senator Johnson said, work amongst the Congressmen, and that there ought to be somebody there, and Congressman Welch pleads with you to send somebody immediately. He asked me if I could go and I said no I cannot go. I have got to sign these Spring Valley bonds. He said, "Try and get Matt Sullivan, and get a good strong committee to come on and it will help me," he said, "and offset this damage that Captain Peterson and McLafferty are doing there."

I am sure they are very anxious. I should have told you this morning, I forgot it, that I received a letter from Colonel Buchanan, head of the National Press Bureau. He said he had not heard much about the bridge bill lately, but his coat was off to work for us, and that is his Bureau that sends out the White House messages all over the Nation. My suggestion is stronger now than it was when I spoke to you this morning. I would send somebody immediately, and I would get them away as quickly as possible. Evidently the Spring Valley Bonds will have to be delivered on the 1st of February, but you have got to have somebody there all the time and Congressman Welch is pleading with you now to do it.

Supervisor Shannon: Mr. Mayor, I call for the resolution introduced by myself on October 29, to have it before the Board for action at this time. It has been in the hands of the Finance Committee, or the Chairman of the Finance Committee, since that time, and I would like to, under my parliamentary right as it has been in there thirty days, call it up for action at this time and ask to have the Clerk read it.

Whereupon, the following resolution was read and Supervisor Shannon moved its adoption:

Johnson-Welch Bridge Bill.

Resolution No. —— (New Series), as follows:

Whereas, all applications for franchises to construct a bay bridge from San Francisco to Alameda under private ownership have been denied. It is, therefore, necessary to concentrate in an appeal to Congress for favorable action on the Johnson-Welch bridge bill at earliest possible time; therefore,

Resolved, That his Honor the Mayor is authorized to appoint three members of the Board of Supervisors and such other officials and citizens as he deems proper as a committee to urge the passage of the said Johnson-Welch bill. Said committee to conduct an intensive campaign for this publicly owned bridge and to proceed to Washington and do all necessary things to accomplish the passage of said bill.

Amendment.

Supervisor Andriano moved that a committee of five be appointed by the Mayor, leaving it up to him as to the personnel.

Supervisor Gallagher moved as an amendment that his Honor the Mayor be authorized to appoint and accredit to Washington a committee of citizens of a number in accordance with his judgment and to be composed of citizens of this community, whether Supervisors or otherwise.

Supervisor Colman: Just one consideration and that is this: There is some opposition apparently to a publicly-operated bridge, and this Board of Supervisors is committed to the policy of a publicly-built and publicly-operated bridge, and in your choice of the delegates who will go to help to represent the City, naturally you will bear that fact in mind, and appoint only such men who are whole-heartedly and absolutely and consistently in favor of such a policy. It is obvious that an error in the personnel might result disastrously to the success of the project, and that, if any one is appointed who does not believe, with all his heart, in the project as unanimously endorsed by this Board, the project will fall. It is a difficult situation for this Board, in view of the conflicting statements from Washington, to decide what to do, but in view of the statements received by you over the telephone it is advisable to send somebody there. At the same time we must guard against this. It might come about that, due to the short session, we might not get an entirely satisfactory result. This should not in anyway be a foundation for saying that, because we have already made two unsuccessful attempts, that we should therefore stop our activity and lay down. On the contrary, any set-back which we should be so unfortunate as to receive should simply strengthen our resolve to go at it all the stronger at the next session. I would like to have this read into the record, because it might be easy for those who may not

favor a publicly-owned bridge to advance the propaganda that the Supervisors have already sent two delegations which did not meet with success, therefore, they should drop it, that they never can meet with success. I do not subscribe to that. Sometimes very desirable things are hard to get, and the harder to get that they are, that should strengthen our resolve that we get them. So again I commend to you, Mr. Mayor, the necessity in making your choice of selecting men who are whole-heartedly and sincerely in favor of the project that has been unanimously endorsed by this Board of Supervisors.

Supervisor Gallagher's amendment *accepted* and it was *so ordered.*

Consideration of the Matter of the Appointment of Golden Gate Bridge Directors—Supervisor's Resolution.

The following resolution, heretofore presented by Supervisor Havenner and laid over from a previous meeting, was *laid over until next meeting*:

Resolution No. ———— (New Series), as follows:

Whereas, this Board of Supervisors did, pursuant to the provisions of an Act of the Legislature of the State of California entitled "An Act to provide for the incorporation and organization and management of bridge and highway districts," by resolution duly adopted on the 24th day of December, 1928, appoint six residents of the City and County of San Francisco directors of the Golden Gate Bridge and Highway District; and

Whereas, four of said six persons so appointed were, at the date of their respective appointments, and now are, holding office, either as officials of the City and County of San Francisco or of the United States; and

Whereas, there has been a widespread and well-defined objection voiced to the fact that a majority of the directors of said bridge and highway district appointed from San Francisco have been persons who are already holding public office; now, therefore, be it

Resolved, That this Board of Supervisors does hereby respectfully call upon the four persons heretofore appointed as directors of said bridge and highway district, who were at the date of their respective appointments, holding other public office, to resign as directors of said bridge and highway district, and that upon said resignations being tendered they be forthwith accepted, and that consideration be then given to the appointment of the successors to said persons so resigning.

Dec. 31, 1928—*Presented by Supervisor Havenner and laid over until this meeting.*

January 3, 1929—*Over until January* 7, 1929.

To the Hon. Board of Supervisors, City and County of San Francisco.

Gentlemen: In variance from illegitimate elements of, but otherwise in compliance with the accompanying notice inviting bids for the purchase of bonds of said City and County, which notice is made a part of this proposal, and according to the legitimate extent of the conditions and stipulations contained therein, the undersigned hereby agrees to purchase the following bonds of said City and County and pay therefor the price set opposite the bonds designated, to-wit:

Communication From Heller, Bruce & Co., Investment Bonds, Mills Building, San Francisco.

The following was subsequently presented and read by the Clerk:

January 14, 1928.

Honorable Board of Supervisors, City and County of San Francisco, San Francisco, California.

Gentlemen: Referring to the $41,000,000 San Francisco Spring Valley 4½ per cent bonds advertised for sale today—the undersigned syndicate managers associated with the following local banks and investment houses—E. H. Rollins & Sons, Dean Witter & Co., Bond & Goodwin & Tucker, Inc., Heller, Bruce & Co., Wells Fargo Bank & Union Trust Co., Auglo-California Trust Co., Crocker First National Bank—regret their inability to submit a bid because the bonds would have to be sold at par or better, and on account of the low coupon rate they would not be marketable at this time.

They wish to go on record as being willing to cooperate in every way possible to facilitate the taking over the Spring Valley property by the City.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Dr. Willis Durant Presented.

His Honor Mayor Rolph introduced Dr. Willis Durant who, he said, had written a magazine article addressed to all Mayors, but he had not read it. The Mayor understood, however, that it constituted a criticism of democratic form of government.

Dr. Durant said he considered it a fine example of democracy when "a critic of democracy is welcomed in such a place as this." He thought that administration of public affairs was as important as "administering pills," and called attention to the years a physician must study before admittance to practice. He praised the City Hall as "finer than any I have ever seen," and spoke in hope that San Francisco would develop as one of the great cultural centers of the world. "I recognize in your Mayor," he said, "a philosopher because he has a sense of humor. I believe a sense of humor is as necessary in politics as elsewhere."

Opening of Branch Postoffice in City Hall.

Harry L. Todd, Postmaster, was introduced to the Board by his Honor Mayor Rolph. The presence of Postmaster Todd was in observance of the fact that a short time before he and the Mayor held a ceremony in honor of the opening in the City Hall of a branch postoffice, said to be the first ever installed in any city hall in any city in the United States.

The Mayor spoke in praise of the Postal Department. Postmaster Todd, in response, told how happy he was to have been able to do what he had done.

Supervisor Powers, speaking for the Supervisors, predicted that a postoffice building soon will be part of the Civic Center.

Discharge of Park Employees.

William F. Humphrey, representing the Park Commission, was granted the privilege of the floor and explained that refusal of Auditor Boyle to honor warrants against the $250,000 Kezar Stadium appropriation was not entirely the cause of men having been laid off by the Park Commission. He said it always had been the custom to lay off men in certain months, particularly December, January and February. He cited figures to show that 261 men had been laid off at this time in 1927, and that while there is a present difference of 300 men less than last summer, only 179 were laid off recently. "It was not expected by the Park Commission," he said, "that the appropriation made by this Board would not be available. It is not under court attack, but the McLaren Park appropriation is, and the Auditor, in his wisdom, has refused to honor demands against the stadium appropriation. As this Board instructed the Park Commission let contracts last April for enlargement of the stadium, therefore the City became responsible for payment of the bills. The Commission has on hand $270,000 remaining from the $800,000 appropriation of the last fiscal year, and

this balance is being held for maintenance of the parks. Should the $250,000 become available the Commission will start thereupon to carry out development plans."

Mr. Humphrey, in reply to questions by Supervisors, explained that the stadium had been kept busy and that had it not been enlarged some of the big football games held there last fall would have gone elsewhere.

Whereupon, the Board at the hour of 1:20 p. m. took a recess until 2:15 p. m.

Telegram.

Sacramento, January 14, 1929.

Supervisor Franck Havenner, City Hall, San Francisco, Calif.

Legislature will recess next Friday or Saturday. If you desire action on Charter Amendments at first session resolution should be introduced not later than Wednesday. Opinion here is opposed to establishing dangerous precedent of requesting Legislature to disapprove any Charter Amendment adopted by people. Wait instructions whether all Charter Amendments are to be approved or is Charter Amendment Twenty-nine to be disapproved. Refer to my correspondence as to problem involved. Confer with Supervisor Marks and City Attorney and wire instructions.

Report of Committee on State Legislation.

The following was presented and read by the Clerk:

San Francisco, California, January 16, 1929.

To the Members of the Board of Supervisors, City and County of San Francisco.

Gentlemen: Your Committee on State Legislation has met with respect to various matters submitted to it and herewith renders the following report:

I. Aviation Measures.

Supervisor Kent appeared before the Committee with respect to two measures pending before the State Legislature, commonly known as the "California Aircraft Act," and the "Aircraft Transportation Act." He pointed out to the Committee that the acts have received the disapproval of communities in California where aviation has been developed, and further argued that the matter of aviation is now under the control of the Federal Government where it has received due and proper attention. He urged the Committee to look with disfavor upon any act which would attempt to impose additional restrictions upon aviation, and expressed the belief that the enactment at this time of any State law regulating aviation in addition to federal regulations now in effect would be a detriment to the development of the aviation industry in California, and would also have a bad effect upon the aviation program of San Francisco.

The Committee is in accord with the views of Supervisor Kent, chairman of the Airport Committee, in this respect, and we accordingly recommend that the Board of Supervisors express its disapproval of these measures.

II. Charter Amendment No. 29.

This amendment was adopted by the people in the election of November, 1928, its purpose and intent being to provide for a hearing be-

fore the Police Commission prior to the removal of any officer of the Police Department assigned to duty as a detective sergeant.

Through error, in the reference to the section of the Charter sought to be amended, the amendment on its face appears to have the effect of eliminating two positions in the Police Department, namely: The Captain of Detectives and the Captain of Traffic Bureau, which effects were not contemplated by the Charter Amendment. Chief Quinn, Captain Goff, Captain Mathewson, and Secretary Skelly of the Police Commission, appeared before the Committee urging that the Legislature be requested to refuse approval of the Charter Amendment.

City Attorney O'Toole advised the Committee that, in his opinion, the amendment as adopted did have the effect of legislating out of existence the positions of captain of detectives and captain of traffic. The Committee is of the opinion that it should not look with favor upon the general policy of requesting the State Legislature to withhold approval of Charter amendments upon which the people of the City and County of San Francisco had taken action. In this particular case, however, there was presented to the Committee by Captain Mathewson copy of a petition purporting to have been signed by all of the detective sergeants who were the only persons affected by the amendment, addressed to the State Legislature and requesting that the Charter Amendment be disapproved. Under these circumstances and in view of the fact that the amendment is intended for the benefit of a particular group who are now willing to waive the benefits of the amendment, we believe that the Board of Supervisors should express to the State Legislature our belief that the Legislature should base its action upon the petition addressed to it by the detective sergeants. Accordingly we have requested the City Attorney to prepare a resolution to be presented to the Board at its Wednesday meeting for this purpose.

In making this report the Committee believes that the Board of Supervisors should record itself plainly as being opposed in general to the policy of appealing to the Legislature for disapproval of a Charter Amendment which has been adopted by the people.

III. Amendment to Gas Tax Law.

Mr. Adolph Uhl submitted to the Committee a proposed amendment to the State statute governing the use of moneys allotted to counties out of the Gas Tax Fund to provide that the Board of Supervisors in its discretion might use a portion of the gas tax money for the payment of interest upon bonds, the proceeds of which were used for highway construction.

The Committee was of the opinion that this proposed measure involves a very extensive problem connected with the financing of streets and highways, both inside and outside of the City and County of San Francisco, and we were unable in the short space of time to give this matter the intensive study which it deserves.

Accordingly, we recommend that the Board of Supervisors take no action with respect to the proposed amendment prior to the constitutional recess of the State Legislature, but that this matter be referred to the Streets Committee of the Board of Supervisors for its consideration and study during said recess, with the request that the Streets Committee make its recommendation to the Board of Supervisors.

IV. Reclamation Bill.

Mr. Adolph Uhl appeared before the Committee with respect to a proposed reclamation bill, and advised us that the details thereof had been presented to the Streets Committee. The details of the proposed measure were not presented to the Committee on Legislation and we were further advised by Mr. Uhl that it was his understanding that the matter was to receive consideration in the Board of Supervisors in its session on Wednesday morning. Under these circumstances we have no recommendation to make, but suggest that the matter receive consideration in the full Board.

V. Justices' Court.

Mr. Robert Dennis, Clerk of the Justices' Court, appeared before the Committee and presented two measures affecting the Justices' Court, the first providing for a change in the Fee Bill, and the second having reference to the personnel and salary of the members of his office.

The Fee Bill provides for a readjustment of the charges to be paid by litigants, and we were advised by Mr. Dennis of his opinion that, based upon his experience, the adoption of this measure would bring about a substantial increase in the revenues of his office. We recommend approval of this measure.

The second bill presented by Mr. Dennis provides for certain salary increases, and for an increase in the number of his deputies. We recommend the adoption of this measure, but in view of the fact that the same involves a matter of finance affecting the City and County, we further recommend that the same be transmitted to the Finance Committee for its study and consideration prior to action by the Board of Supervisors.

VI. Adult Probation Department.

Mr. Joseph C. Astredo, Chief Probation Officer, appeared before the Committee urging the adoption of a statute providing for an additional probation officer at a salary of $200 per month. He called attention to recent regulations adopted by the State Department of Social Welfare making necessary considerable checking of accounts, and stated that the additional work cannot be performed by his existing staff. He further stated that the matter had already been presented to the Finance Committee and had received its approval.

We recommend approval of this measure.

Respectfully submitted,

LEGISLATIVE COMMITTEE.
MILTON MARKS,
Chairman.
F. J. McGOVERN.
WALTER J. SCHMIDT.

Consideration of Recommendations of Committee on State Legislation.

Disapproval of Charter Amendment No. 29 Requested.

Chief William Quinn of the San Francisco Police Department, together with Captains Mathewson and Goff, appeared before the Board, urging the adoption of the following resolution to correct an unintentional error made in Charter Amendment No. 29, voted by the people, which has the effect of legislating the captains above mentioned out of office.

Adopted.

Whereupon, the following resolution, as recommended, was *adopted*:

Resolution No. 30271 (New Series), as follows:

Whereas, the Board of Supervisors of the City and County of San Francisco did, on the 18th day of September, 1928, order submitted to the electors of the City and County of San Francisco, to be voted upon on the 6th day of November, 1928, a certain Charter amendment, purporting to amend Section 6 of Chapter V of Article VIII of the Charter of the City and County of San Francisco, which said amendment as ordered submitted was designated as "Charter Amendment No. 29," and was in the words and figures following, to-wit:

"That Section 6 of Chapter V of Article VIII be amended to read as follows:

"The Chief of Police may detail for detective duty such members of the Police Department as he may select, not to exceed one for each eighteen members of the Police Department.

"The members so detailed shall rank as detective sergeants; each of

said detective sergeants shall receive an annual salary of two thousand seven hundred sixty dollars.

"They shall be given a hearing before the Board of Police Commissioners before removal from the detail by the Chief of Police.

"Their duties shall be defined by the rules and regulations of the Commissioners, by the orders of the Chief of Police and by the order of the captain of detectives."

And whereas, the aforesaid amendment as ordered submitted did, at the election held in the City and County of San Francisco, receive the approval of the electors of the said City and County, and has with the other amendments to the Charter of said City and County approved at said election, been transmitted to the Legislature of the State of California for approval.

And whereas, it was the intention of the said Board of Supervisors in submitting said amendment, to provide that detective sergeants provided for in said Section 6 of Chapter V of Article VIII of the Charter as it existed at the date of the submission of said purported amendment, should not be removed from their positions without a hearing before the Board of Police Commissioners of the City and County of San Francisco, and not to change, annul or repeal the provisions in said section relative to the appointment of a captain of detectives, his salary or his duties, and that it was not the intention of said Board of Supervisors to change, annul or repeal the provisions in said section relative to the detailing of members of the Police Department for traffic duty or the selection and designation of a captain of police to act as captain over the officers so detailed, or fixing the salary of said captain, and that, therefore, said amendment as ordered submitted did not express the true intent and meaning of said Board of Supervisors. And that the said amendment as submitted was submitted through inadvertence and mistake. And that this Board of Supervisors believes that when the electors of the City and County approved said amendment, said electors were under the impression that said proposed amendment amended said Section 6 of Chapter V of Article VIII of the Charter by providing for a hearing before the said Board of Police Commissioners for said detective sergeants before any of them could be removed from their respective positions, and that said amendment did not change, annul or repeal any of the other provisions of said section hereinbefore referred to, and that said proposed amendment as approved by the electors of the City and County does not express the true intent and meaning of the electors who voted for the approval of said amendment.

And whereas, the only persons who are directly benefited by said amendment as submitted and approved, as aforesaid, are those members of the Police Department of the City and County of San Francisco who now occupy the rank of detective sergeant, and that all of said persons have in writing petitioned the Legislature of the State of California now in session to refrain from approving said amendment; now, therefore, be it

Resolved, by the Board of Supervisors of the City and County of San Francisco, in meeting assembled, that said Board offers no objection to the granting of any petition presented requesting that said Charter Amendment No. 29 be not approved by the Legislature of the State of California.

Ayes—Supervisors Andriano, Colman, Gallagher, Havenner, Hayden, Kent, McGovern, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Todd, Toner—15.

So ordered.

J. S. DUNNIGAN, Clerk.

The Board of Supervisors reassembled at 2 p. m.

Supervisors Andriano, Colman, Gallagher, Havenner, Hayden, Kent, McGovern, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Todd, Toner—15.

Consideration of Recommendations of Committee on State Legislation.

Justices' Courts.

Mr. Robert Dennis, Clerk of the Justices' Court, was granted the privilege of the floor and urged the approval of two measures, one providing for a change in the "Fee Bill" and the second referring to the personnel and salaries of the employees of his office.

On motion of Supervisor Marks, the "Fee Bill" recommendation was *approved unanimously.*

On motion of Supervisor Marks, the bill referring to "Personnel and Salaries" in his office, was *recommended and referred to the Finance and Civil Service Committees for consideration as to question of finances involved.*

Committee of the Whole.

On motion of Supervisor Shannon, the Board resolved itself into Committee of the Whole for the consideration of the following matter:

Supervisor Havenner in the chair.

South Basin Reclamation.

Supervisor Gallagher presented:

Resolution No. ———— (New Series), as follows:

Resolved, That the Legislative Bureau, representing this Board of Supervisors, take steps to have reintroduced Senate Bill No. 656, presented to the Legislature on January 23, 1925, by Senator Crowley, Senator Murphy, Senator Gray, Senator Canepa, Senator Fellom, Senator Tubbs and Senator Maloney, and which in the main deals with the reclamation of South Basin and South Basin Canal, and provides the State legal machinery for these improvements.

Privilege of the Floor.

M. M. O'Shaughnessy, City Engineer, was granted the privilege of the floor and declared that he favors and recommends the proposed measures. It has nothing to do, he said, with the Islais Creek reclamation.

Motion.

Supervisor Gallagher moved that if there be any protestants that their protest be heard at this time.

Hearing of Protests.

Whereupon, the following communication, from the South San Francisco Dock Company, in opposition to the present proceedings, was read by the Clerk:

January 16, 1929.

Reasons Why the South Basin Reclamation Resolution Should Not Be Adopted.

1. The property owners have not been notified and have had no opportunity to confer on the matter.

2. Estimates for this reclamation would amount to confiscation of the property. The owner of every 25-foot lot would be assessed $500.

3. At the figure given by the representative from the City Engineer's office, the cost of reclaiming 1300 acres would be $11,440,000, which would have to be borne by the property owners who have not been heard. This figure is disputed because two years ago the City Engineers' office gave a price of $13,000 an acre for reclaiming against $8,800 an acre now. There is evidence upon the authority of recognized engineers that the cost would not be less than $15,000 an acre.

4. The establishment of a reclamation district would immediately withdraw this area from the real estate market and prevent any further sales or real estate transactions.

5. The establishment of a reclamation district in the area would result in litigation covering many years, thereby retarding the development rather than helping it. See record of Islais Creek Reclamation District.

6. There is no demand for this project, except by one citizen.

7. It is believed that few Supervisors have been asked by their friends, or by people they know, to support this measure.

8. This project was endorsed by the Central Council of Civic Clubs on representation of one citizen who urged it, supplemented by a statement from the City Engineer's office without recommendation. There was no opportunity for opposition to be heard. The motion approving it was presented while another motion was pending and considerable confusion existed at the time.

9. Finally, if the district is undisturbed by legislative supervision, there is every reason to believe that a substantial reclamation project by private capital will very shortly develop. This is being emphasized by the activity in the district caused by the proposed Western Pacific Railroad building through it.

SOUTH SAN FRANCISCO DOCK CO.,
By H. H. LINNEY, President.
By C. W. WHITNEY, Secretary.

(The South San Francisco Dock Co. is the owner of about 200 acres in the Hunters' Point District.)

Frank Ainsworth, representing the South San Francisco Dock Company and the Estate of Jos. McDonald, was heard in objection to the proposed reclamation district.

Henry F. Wrigley, representing Mrs. Belle Brooks Reese and the Prior Estate, and *J. W. Ham*, representing F. X. E. Drew Estate were also heard in opposition.

Jas. F. Kelly and *Adolph Uhl*, representing the Industrial Lands Site Association of San Francisco, were hear in favor of the adoption of the resolution.

Whereupon, Supervisor Gallagher withdrew his resolution and it was moved and duly *carried* that the proposed reclamation bill be submitted to the San Francisco delegation to insure its advantageous position on the legislative calendar and that further hearing be had during the Legislature's recess to determine the Board's policy.

Committee Arises.

Whereupon, on motion of Supervisor Shannon, the Committee of the Whole arose and reported to the Board.

Relative to Appointment of Rincon Hill Bridge Delegation to Washington.

January 21, 1929.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, California.

Gentlemen: By resolution you directed me to appoint a committee to proceed to Washington to further the interests of the transbay bridge from Rincon Point to Alameda. I immediately proceeded to

appoint such committee and for your files I hand you copy of telegrams exchanged between Senator Hiram W. Johnson and Congressman Richard J. Welch and myself and also newspaper clippings bearing on the subject. I desire to discuss the matter with you today and get your further viewpoint and instructions.

Very respectfully yours,

(Sgd.) JAMES ROLPH, JR., Mayor.

(Newspaper clippings attached.)

Telegrams Sent By and Received From the Honorable Richard J. Welch.

San Francisco, Calif., January 14, 1929.

Honorable Richard J. Welch, Member of Congress, Washington, D. C.

I reported to Board of Supervisors this afternoon, following our telephonic conversation, what you had to say and also what Senator Johnson had to say. Senator Johnson thought committee would be helpful with House members and others. Have you any names to suggest?

Sincerely,

JAMES ROLPH, JR., Mayor.

San Francisco, California, January 14, 1929.

Honorable Richard J. Welch, Member of Congress, Washington, D. C.

In rereading message sent you following omission should have been included: I have been authorized to appoint delegates to go immediately to Washington to be helpful in calling upon Congressmen and others regarding House bill only.

JAMES ROLPH, JR., Mayor.

Washington, D. C., January 15, 1929.

Hon. James Rolph, Jr., City Hall, San Francisco, California.

Have no further recommendations to make beyond those contained in my telegram of January thirteenth. Have absolute confidence that you will select a well-qualified committee willing to come here and content to remain long enough to do the work expected of them.

Sincerely,

RICHARD J. WELCH, M. C.

San Francisco, California, January 17, 1929.

Hon. Richard J. Welch, Member of Congress, Washington, D. C.

Today's papers carried press dispatches of your interview with President-elect Hoover and quote you as saying that sending delegation now would be futile regarding bridge bill. Please advise Board of Supervisors and myself by wire what your present recommendations to us now are about committee.

JAMES ROLPH, JR., Mayor.

Washington, D. C., January 18, 1929.

Honorable James Rolph, Jr., City Hall, San Francisco, Calif.

I told newspaper representatives that President-elect Hoover would give transbay bridge his personal attention after inauguration. I told them nothing whatever about delegation. When bridge matter was presented to Congressional committees last year our representatives stated that shipping interests were nearly one hundred per cent for bridge. Captain Peterson and former Congressman McLafferty are now stating to them that shipping interests are unanimously opposed to bridge. Send delegation. Have them bring copies of bridge bill now before California Legislature. Copies of Governor Young's message referring to State ownership of all bridges, also copy of State law requiring approval of State Engineer. Even though President-elect Hoover's statement was very encouraging, bridge proponents should continue to demonstrate interest and break down opposition.

Telegram to Senator Johnson and His Reply Thereto.

San Francisco, California, January 14, 1929.

United States Senator Hiram W. Johnson, United States Senate, Washington, D. C.

I reported to Board of Supervisors this afternoon, following our telephonic conversation, what you had to say and also what Congressman Welch had to say, he pleading for help, and I have been authorized to appoint delegates to go immediately to Washington to be helpful in calling upon Congressmen and others regarding House bill only. Have you any names to suggest?

Sincerely,

JAMES ROLPH, JR., Mayor.

Washington, D. C.

Hon. James Rolph, Jr., Mayor of San Francisco.

Thanks for your wire concerning appointment of those to come here and aid in bridge bill. I have no suggestions as to individuals. I would suggest, however, that any committee appointed thoroughly familiarize itself with every argument both for and against the bridge and be prepared to answer and refute objections made by the Army and Navy Engineers. They should come here, in my opinion, with the idea solely of making converts in the House of Representatives and they should be prepared to interview systematically all of the members of the House accessible and present legitimately the arguments in our behalf. I think a committee that would come here for a day or two and confine itself practically to interviews with the press would be wholly unnecessary and futile. It is possible that a committee coming here willing carefully to study the question and prepared thoroughly to answer the objections performing the disagreeable duty at times of interviewing Congressmen who do not want to be interviewed, but sticking to the job and the job alone might be of some service.

HIRAM W. JOHNSON.

Motions.

Supervisor Andriano declared that he believed that it would be futile to send a delegation at this time and therefore moved that action of last Monday be rescinded.

Supervisor Shannon moved, in accordance with Mayor's suggestion, that an executive session be held in the Mayor's office, to be called at his convenience, when the matter could be fully gone into and to which the five editors of the newspapers would be invited to attend.

(Subsequently objection to the words "executive session" being made, the word "conference" was substituted therefor.)

Motion, as amended, *carried.*

Whereupon, his Honor the Mayor fixed Wednesday evening, January 23, 1929, at 8:30 p. m., in his office, as the time and place for said conference.

The Clerk was instructed to obtain for the conference the bills requested by Congressman Welch. Mayor Rolph suggested that all data, presentation of our case in the Senate, also the shipowners' petition be made available.

Death of Mrs. Eva Hackett.

Supervisor Andriano called attention to the passing of Mrs. Eva Hackett, for over 50 years a teacher in the public schools of San Francisco and secretary of the San Francisco Teachers' Aid Association.

His Honor Mayor Rolph joined him in eulogy of Mrs. Hackett, whose devotion to the cause of education in San Francisco had endeared her to thousands of men and women, former pupils, now prominent in the life of San Francisco.

On motion duly made and carried the chair was authorized to appoint a committee of ten to attend the services at the chapel of Gray & Company, and by rising vote it was *unanimously carried* that when

the Board adjourns it does so out of respect to the memory of Mrs. Eva Hackett.

Every person, firm or corporation engaged in the business of a wholesale peddler, peddling vegetables, butter, eggs, cheese, poultry and game, berries, fruits, nuts or melons at wholesale shall pay a license to the City and County of San Francisco in the sum of two hundred fifty ($250) dollars per quarter, which license shall be issued every three months, or the sum of seven hundred fifty ($750) dollars per year, if yearly license be issued.

For the purpose of this section a wholesale peddler is defined to be and include all persons, both principal and agent, and all firms, corporations, partnerships, or any other joint or singular enterprise engaged in by a person or persons not having a regular fixed and estab-

lished place of business in the City and County of San Francisco, who travel from place to place or have a stand upon any public street or alley, or any other place, doorway of any room or building, unenclosed or vacant lot or parcel of land, and who sells, or offers for sale, any of the products mentioned herein to retail dealers for the purpose of resale, and the person or firm so engaged shall not be relieved from the provisions of this section by reason of association temporarily with any local dealer, trader, merchant or auctioneer, or by conducting any temporary business in connection with, or as a part of, or in the name of, any local dealer, trader, merchant or auctioneer, or any sale by a retail peddler to a retail dealer for the purpose of resale shall classify him as a wholesale peddler and he shall be liable for the difference between what he paid at the beginning of the quarter as a retail peddler and what it should have been, had he been paying a wholesale license.

Consideration of the Matter of the Appointment of Golden Gate Bridge Directors—Supervisor Havenner's Resolution.

Resolution No. ———— (New Series), as follows:

Whereas, this Board of Supervisors did, pursuant to the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide for the incorporation and organization and management of bridge and highway districts," by resolution duly adopted on the 24th day of December, 1928, appoint six residents of the City and County of San Francisco directors of the Golden Gate Bridge and Highway District; and

Whereas, four of said six persons so appointed were, at the date of their respective appointments, and now are, holding office, either as officials of the City and County of San Francisco or of the United States; and

Whereas, there has been a widespread and well-defined objection voiced to the fact that a majority of the directors of said bridge and highway district appointed from San Francisco have been persons who are already holding public office; now, therefore, be it

Resolved, That this Board of Supervisors does hereby respectfully call upon the four persons heretofore appointed as directors of said bridge and highway district, who were at the date of their respective appointments, holding other public office, to resign as directors of said bridge and highway district, and that upon said resignations being tendered they be forthwith accepted, and that consideration be then given to the appointment of the successors to said persons so resigning.

Theresa Street.

Consideration of matter of opening of Theresa street westerly to Alemany boulevard.

City Attorney on Status of Theresa Street—Open Public Street By User.

The following was presented and read by the Clerk:

January 21, 1929.

Dear Sirs: I am in receipt of a letter from the Clerk of your Board reading as follows:

"The Board of Supervisors desires your opinion by next Monday on status of Theresa street between Alemany boulevard and Cayuga avenue—whether it is an open public street by user? Statements have been made to the Board that the public has used property as a street for many years."

Opinion.

The statements contained in the above letter are not sufficiently definite to advise me as to what extent the property, which is described as Theresa street, has been generally used by the public, or whether there has been any dedication of the street to the public generally, or whether vehicles and persons merely pass over it at the sufferance of the owner of the property.

The mere fact that the public generally is permitted to pass over property at will does not of itself constitute it a public highway or street.

See Section 2621, Political Code: "And no route of travel used by one or more persons over another's land, shall hereafter become a public road, or byway by use, or until so declared by the Board of Supervisors, or by dedication by the owner of the land affected."

This section of the code was enacted in 1883, and, therefore, unless it could be established that the property in question was generally used by the public for five years prior thereto, the fact that the public generally have been in the habit of passing over it does not constitute it a public thoroughfare.

In Lautz v. City of Los Angeles, 185 Cal. 262, the Supreme Court of this State has said: "There is no question but that since the enactment of this section of the Political Code, in its present form, the mere user of a route of travel by the public for five years or more did not of itself suffice to constitute the strip of land used by said route of travel a public highway. It was essential to do so under said section of the code that such strip of land must have either been so declared to be by the Board of Supervisors of the County of Los Angeles, or must have become so by dedication by the owner of the tract."

While an express dedication in writing is not necessary, and in some cases the dedication may be presumed from the acts of the owner of the property, by abandoning it to the public generally for street purposes, the intention to dedicate must be very clear before the courts will accept a permissive user in lieu of an express dedication. Even where the use has ripened into a dedication, it is only that portion of the property which has been actually used which becomes dedicated to public use.

While your letter, as I have said, fails to give me sufficient facts to determine your express question, I have given you a resume of the law that you may apply it to the facts as they are before you.

Sincerely yours,

JNO. J. O'TOOLE,
City Attorney.

Motion.

Whereupon, Supervisor Marks moved that the question be divided as follows:

(a) As to the opening of Theresa street.
(b) As to financing the improvement.

The roll being called on the first question (a) as to the opening, the same *carried* by the following vote:

Ayes—Supervisors Gallagher, Havenner, Kent, McGovern, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner —13.

Noes—Supervisors Andriano, Colman, Hayden—3.

Absent—Supervisors Deasy, McSheehy—2.

Action Deferred.

Thereupon, on motion of Supervisor McGovern, further action on "(b) as to financing", the same was *laid over one week* for assessment district to be outlined, by the following vote:

Ayes—Supervisors Andriano, Colman, Havenner, Hayden, Kent, McGovern, Marks, Powers, Stanton, Toner—10.

Noes—Supervisors Gallagher, Roncovieri, Schmidt, Shannon, Suhr —5.

Absent—Supervisors Deasy, McSheehy, Todd—3.

Supervisor Marks asked for further and more definite information from City Attorney and Joseph Phillips, Right of Way Agent, as to dedication of said street by user.

Supervisor Stanton also asked for present valuation and the value before Alemany boulevard was put through.

Investigation of Alleged Cement Trust.

Supervisor Marks presented:

Communication, from Special Committee on Legislation of the State Legislature, advising of proposed investigation of alleged cement trust and requesting information as to evidence tending to indicate such.

Referred to Purchaser of Supplies and Supplies and Streets Committees.

UNFINISHED BUSINESS.

Section 4. Said receipt shall also set forth the following portions of said initiative ordinance, to-wit:

The term "refuse" as used in this ordinance shall be taken to mean all waste and discarded materials from dwelling places, households and apartment houses, including waste or discarded food, animal and vegetable matter from kitchens of dwelling places, households and apartment houses, waste paper, cans, glass, ashes and boxes and the cuttings from trees, lawns and gardens.

In determining the number of rooms of any household, building or

order to ascertain the rate for the collection of refuse
ls, alcoves, storerooms, bathrooms, closets and toilets
nsidered as rooms, nor shall basements or attics be con-
ns unless the same be occupied as living quarters.
t shall be unlawful to demand, receive or collect any
arge or other thing of value for the collection of refuse
a receipt in the manner herein prescribed.
ny person, firm or corporation who shall violate any of
of this ordinance shall be guilty of a misdemeanor, and
thereof shall be punished by a fine not to exceed five
dollars, or by imprisonment in the County Jail for not

widths on Valencia street, from Market to Mission streets. It will be recalled that the Streets Committee and the Board in their 1926-1927 set-up for expenditures out of the County Road Fund included an item "Valencia street, Market to Twentieth streets (widening), $35,000." Accordingly the Finance Committee on September 30, 1927, recommended to the Board that the Board of Public Works be authorized to enter into contract for this improvement, and the Board approved this recommendation on October 3, 1927, by the passage of Ordinance No. 7752. The following legislative action then ensued:

October 5, 1927, Board of Public Works transmitted Resolution No. 99174, adopted October 3, 1927, recommending passage of an ordinance authorizing them to let the work to public contract.

October 17, 1927, Ordinance No. 7767 passed, reducing width of sidewalks on Valencia street from Market to Mission streets from 15 to 12 feet, in accordance with the recommendation of the Board of Public Works by their Resolution No. 99277, adopted October 10, 1927, which ordinance contained the following clause: "Any expense caused by the above change of walks or widths shall be borne by the property owners."

On March 26, 1928, M. I. Sullivan, as plaintiff, filed a suit for injunction against the Board of Public Works and secured a restraining order to prevent any calling for bids or entering into any contract for the performance of the work, on the grounds that the clause referred to above, that expense caused by reduction of walk widths should be borne by property owners constituted the levying of an assessment; that in the levying of an assessment the Charter and the ordinances required that notices be posted and hearings be held, etc.; that the Board of Supervisors had ordered the work prior to the receipt of the recommendation from the Board of Public Works, which was a violation of the Charter provision that all street work should be ordered only upon the recommendation of the Board of Public Works, unless ordered by fourteen members of the Board, and in this case there were only 13 votes in favor of the passage of Ordinance No. 7752, there being five absentees; and other reasons of a more or less technical nature. This suit for an injunction was heard and postponed in the courts from time to time, and on July 3, 1928, the City Attorney recommended that all proceedings be abandoned and started anew. This in view of the fact that the court would undoubtedly sustain the petitioner for the injunction on the question of the irregularity of the proceedings as outlined above. Your Streets Committee accordingly instructed the City Attorney and Board of Public Works to abandon all proceedings previously taken and requested the Board of Public Works to commence new proceedings and have the City Attorney prepare them in proper legal form. On July 13, 1928, the Board of Public Works, by Resolution No. 102852, recommended the ordering of the work. This was submitted to the City Attorney by your committee and he advised that the resolution was not properly drawn, and the Board of Public Works was so advised, and they, on September 17, 1928, by Resolution No. 103576, rescinded all previous recommendations.

Your committee then requested that the Board of Public Works again start proceedings for the ordering of this work and consult with the City Attorney to insure that they would be presented in the proper legal form. To date no recommendation has been received, and this despite repeated requests from the Streets Committee. The committee wishes to call the Board's attention to the fact that it has exercised due diligence in prosecuting this work, and is at a loss to account for the unusual delay. The necessary legislation has not been submitted, nor is there any indication that it will be for some time to come. The committee is prepared to recommend this work at any time that it

can legally do so, and refers the entire matter to the Board for whatever action it may care to take.

Respectfully submitted,

ANDREW J. GALLAGHER,
Chairman;
ALFRED RONCOVIERI,
FRED SUHR,
Committee on Streets and Commercial Development.

Motion.

Supervisor Schmidt moved that the Board of Public Works be sent for to explain why the proper resolution for the widening of Valencia street was not brought in.

Bill No. ———, Ordinance No. ———— (New Series), as follows:

Covering operation of motor vehicles in San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It shall be unlawful for any person, firm or corporation to operate any motor vehicle along or upon any public street or highway in the City and County of San Francisco, State of California, for the carriage of passengers for hire, unless such person, firm or corporation shall have given and there shall be in full force and effect and on file with and approved by the Police Commission of said City and County of San Francisco at all times during which such motor vehicle is being so driven or operated, for each such vehicle a policy of liability insurance in such form as the Police Commission may deem proper, executed by a responsible and solvent corporation authorized to conduct an insurance business under the laws of the State of California and conditioned to indemnify such person, firm or corporation against any judgments which may be rendered against such person, firm or corporation for damages on account of injuries to property or person to both passengers and/or the public occasioned by the operation of any such motor vehicle, in the following sums:

(a) For the injury or death of any one person in any one accident, $5,000;

(b) For the injury or death of two or more persons in any one accident, $10,000;

(c) For the injury or destruction of property in any one accident, $500.

Provided, however, that in the event any such vehicle so operated shall have a seating capacity of more than eight persons, said policy shall provide that the maximum sum to be paid for the injury or death of two or more persons in any one accident shall be $20,000.

No such policy shall be rejected by the Police Commission unless said Commission shall in writing assign its reason for such rejection, and no liability insurance company shall be rejected as an insurer which is authorized by the State of California to write such policies, provided such authorization has not been revoked.

(2) In lieu of the aforesaid policy of liability insurance such person, firm or corporation may file with and have approved by said Police Commission a bond in such form as the Police Commission may deem proper, executed by a responsible and solvent corporation authorized to conduct a bonding insurance business under the laws of the State of California, or by two personal sureties whose qualifications shall be as hereinafter prescribed, which bond shall be conditioned for the payment of all final judgments which may be rendered against any such person, firm or corporation for damages on account of injuries to property or person to both passengers and/or the public occasioned by the operation of any such motor vehicle within the limits prescribed by paragraphs a, b and c of Section (1) hereof, and which bond shall be in an amount graduated according to the number of motor vehicles owned or offered for hire according to the following scale:

(a) Where such person, firm or corporation owns or offers for hire only one motor vehicle, said bond shall be in the sum of $10,000;

(b) Where such person, firm or corporation owns or offers for hire more than one but less than five motor vehicles, said bond shall be in the sum of $20,000;

(c) Where such person, firm or corporation owns or offers for hire more than five but less than ten motor vehicles, said bond shall be in the sum of $30,000;

(d) Where such person, firm or corporation owns or offers for hire more than ten but less than twenty-five motor vehicles, said bond shall be in the sum of $40,000;

(e) Where such person, firm or corporation owns or offers for hire more than twenty-five but less than fifty motor vehicles, said bond shall be in the sum of $60,000;

(f) Where such person, firm or corporation owns or offers for hire fifty or more motor vehicles, said bond shall be in the sum of $100,000.

No such bond shall be rejected by the Police Commission unless said Commission shall in writing assign its reason for such rejection, and no bonding insurance company shall be rejected as an insurer which is authorized by the State of California to write such bonds, provided such authorization has not been revoked.

In the event the bond hereinabove provided for is executed by two or more personal sureties, there shall be attached to such bond the statement in writing of each such personal surety, duly sworn to and acknowledged, setting forth that he or she owns in fee simple certain described real estate in the City and County of San Francisco, and its location and legal description, together with its assessed value on the roll of the Assessor of the City and County of San Francisco, which assessed value over and above any and all encumbrances, exemptions and claims of every kind and description shall be at least one and one-half times the penalty of said bond, and such bond for the full amount thereof shall by its terms be a lien for the benefit of the beneficiary in said bond on such real estate so scheduled, and shall be recorded in the office of the Recorder of the City and County of San Francisco, and said bond shall further provide that suit may be brought in any court of competent jurisdiction upon said bond by any person, firm or

corporation suffering any loss or damage as hereinabove set forth; provided, however, that no action shall be maintained on said bond and there shall be no recovery thereon unless within thirty (30) days from and after the filing thereof there shall be recorded in the office of the County Recorder of the City and County of San Francisco a lis pendens on the real property scheduled in said bond. Said bond shall further contain a provision for a continuing liability thereunder up to the full amount of the penalty thereof, notwithstanding any recovery thereon. If at any time in the judgment of the Board of Police Commissioners said bond is not sufficient for any cause, said Commission may require the owner of such motor vehicle who filed the same to replace said bond with another good and sufficient bond or insurance policy in accordance with the provisions of this ordinance.

(3) In the event that such person, firm or corporation files either a policy of insurance or a bond of a corporation authorized to conduct a bonding insurance business under the laws of the State of California, or a personal bond, the said policy or bond shall contain a provision that the same cannot be cancelled by the company issuing it, or by the personal sureties thereon or either of them, without giving thirty (30) days' notice in writing of such cancellation to the Secretary of the Board of Police Commissioners. Before a policy or bond of any insurance corporation shall be accepted by the Board of Police Commissioners there shall be filed with said policy or bond a receipt of the company issuing the same, showing that the premium thereon, for at least a period of three (3) months of the term thereof, has been fully paid. If at any time said policy of insurance or bond be cancelled by the issuing company or by the personal sureties or either of them, or the authority of said issuing company to do business in the State of California be revoked, it shall be unlawful for any person, firm or corporation to operate such motor vehicle until a bond or insurance policy meeting the requirements of this ordinance shall have been filed with the Police Commission.

In the event of the return unsatisfied of any execution issued on any final judgment or on any judgment from which an appeal may be taken without bond, rendered against any such person, firm or corporation in any suit for damages on account of injury to person or property occasioned by the operation of any such motor vehicle, such person, firm or corporation shall within ten (10) days after the return of such execution unsatisfied (provided said judgment is still unpaid) increase the amount of his policy of insurance or of his bond by the amount of such judgment, and failing so to do shall forthwith cease the operation of motor vehicles in San Francisco until such additional bond or insurance policy is deposited or said judgment is paid.

(4) The provisions of this ordinance shall not be applicable to any "jitney bus" as the same is defined by Ordinance No. 3212 of the City and County of San Francisco, State of California, approved April 29, 1915, nor to any sightseeing or interurban bus as the same is defined by Ordinance No. 5118 (New Series) of the City and County of San Francisco, State of California, approved April 6, 1920.

Hannay, Quartermaster's Corps, Fort Mason, in regard to the paving over the right of way of the spur track connecting Fort Mason and the Presidio, setting forth that if the Board of Supervisors will pass an ordinance prohibiting the parking of automobiles on said right of way except on Sundays and national holidays, the department will withdraw its objections to the improvement and recommend to higher authority that permission be granted for the improvement in question.

His Honor the Mayor presented the following communication:

San Francisco, January 24, 1929.

Honorable Board of Supervisors, City Hall, San Francisco, California.

Gentlemen: Immediately following a meeting in the Mayor's office Wednesday night, January 23, 1929, I sent two telegrams, copies of which are attached hereto, one to Senator Hiram W. Johnson and another to Congressman Richard J. Welch.

I respectfully suggest that these messages of mine be made a part of your transbay bridge proceedings.

Very respectfully yours,

JAMES ROLPH, JR., Mayor.

The foregoing communication was read by the Clerk, made a part of the record, and *filed.*

The following *communication* was received from the City Attorney:

San Francisco, January 28, 1929.

Honorable Board of Supervisors, City Hall, San Francisco, Cal.

Dear Sirs: On Wednesday, the 23d inst., Judge Goodell of our Superior Court directed a peremptory writ of mandate to issue in the case of O'Connell v. Board of Supervisors, directing the Board to hear the application of John O'Connell for a franchise to erect and maintain a toll-bridge between the City and County of San Francisco and the County of Alameda. Judge Goodell allowed a stay of proceedings for ten days, and therefore the writ will not issue until February 2.

The effect of the issuance of this writ will be to compel your Board to hear the application of Mr. O'Connell, and possibly the applications of all other persons for bridge franchises which are pending and unheard. An appeal taken before the issuance of the writ will stay its effect.

In view of the decision of Judge Goodell I will be glad to have your Board advise me immediately as to whether or not you desire to proceed to hear these bridge applications or whether you desire me to take an appeal in the action.

Sincerely yours,

JOHN J. O'TOOLE, City Attorney.

The communication was read by the Clerk and, on motion of Supervisor Havenner, the City Attorney was requested to take an appeal in court action from the decision of Judge Goodell.

Communication From Supervisor Shannon Expressing His Position in Connection With the Board of Directors of the Golden Gate Bridge and Highway District.

Supervisor Shannon presented and read the following communication, and it was ordered that it be made a part of the record and spread at length in the Journal, as follows:

Since recent official acts of mine have been subjected to unwarranted attacks in the press, I feel that in fairness to myself there should be spread on the records of this Board a statement of my position in connection with the Board of Directors of the Golden Gate Bridge and Highway District. So that the record may be clear and the citizens of San Francisco and the northern counties may know my position without misrepresentation or misquotation, I have prepared this statement in writing and I am delivering copies to the press, a portion of which has so unfairly attacked me, and request that in the spirit of fair play it be published in full.

My appearance at the first meeting of the Board of Directors of the Golden Gate Bridge and Highway District and my taking of the oath of office as a member of that Board had as its only motive the protection of the interests of San Francisco in this great project. San Francisco taxpayers have too large an interest in this great project to be only partially represented, even temporarily, on the governing body of the bridge district. As the situation stood at this first meeting of the bridge Board, San Francisco taxpayers were, numerically, only half represented on a body with power to impose taxation upon them. There was also possibility of a lack of a quorum at this meeting. As a San Francisco Supervisor, elected to protect the interest of taxpayers, I believe I would have been derelict in my duty if I had not

followed the course I have taken, which was based on the following facts:

Under the law creating the bridge district, San Francisco must have equal representation with the five northern counties. The first meeting of the Board, its important organization meeting, found San Francisco represented by but three directors, only half its proper representation, leaving the entire Board within the narrow margin of two votes of a quorum. I had previously been advised by good legal authority that my verbal resignation given to this Board of Supervisors January 3, 1929, was not legal and that I could legally act as a member of the Bridge District Board to protect San Francisco's interests. I therefore decided to be present at the meeting and file my oath of office.

As to my verbal resignation before this Board and my statements at that time, these facts brought me to my decision:

That verbal statement of resignation was made under pressure of newspaper representations that there was "public protest" and "storms of objections in San Francisco and northern counties" against membership on the bridge directorate of members of this Board of Supervisors. I was absent from the city during most of the period when it was represented in the press that public opinion was aroused in protest. On receipt of a telegram officially demanding my return, I did so, accepting the situation as represented to me in the press. I arrived in San Francisco just in time to attend the meeting of the Board of Supervisors of January 3. That my knowledge of the situation was thus limited to press representations I so stated in the following words:

"You realize the only information I have regarding the present situation is what I have learned from the papers while in Los Angeles. I left Los Angeles at noon yesterday and arrived in San Francisco this morning."

I also stated at that time, as will be found in the official record:

"The condition that has been created as a result of the appointment of the Supervisors of this Board has undoubtedly influenced public opinion."

That was my impression, taking the word of the press and the word of the Mayor quoted in the press. Though I accepted this word, I reserved for myself the right of personal investigation in the following words:

"I have not been in close touch with people to know just exactly what the individual opinions of my friends are. I read in the press that the people of the north are worked up. I read in the press that the people of San Francisco are worked up."

To my sprprise, following my verbal resignation, I found the contrary to be true. I have been unable to find the "public protest" reported in the press. There has reached me not a single objection from any citizen against my membership on the Bridge Board, except that raised in the newspapers themselves. On the other hand, many men and women expressed their regret at my move to quit the Bridge Board, to which I had been appointed by unanimous vote of this Board. Many persons, in discussing the situation with me, recalled my long record of championship of public ownership in San Francisco, and expressed inability to understand this purely newspaper protest against me in view of my public record, which has been so staunchly supported by some of these very newspapers.

It did not take me long to realize that I had been misled into the conclusion expressed before this Board, a conclusion based on newspaper representation hastily accepted without opportunity of personal investigation, that my membership on the Bridge Board "might jeopardize the passage of the bridge bonds." There was not, and is not, so far as I can determine, a public protest against my membership on the bridge directorate "which might jeopardize the passage of the bonds."

Having found that the alleged public protest was nonexistent, and

having been reliably advised that the verbal resignation based on this nonexistent protest had no standing, I decided to follow the course I have taken as a move to protect not only the interest of San Francisco taxpayers but those of the Bridge District itself. I believe there existed and continues to exist a need for as complete a representation as possible for San Francisco on the Bridge Board.

There is pending before the highest court of this State proceedings to determine the legality of the appointment of the Bridge Board. Until this matter is decided, I will not decide on my future course of action in connection with my membership on the Golden Gate Bridge and Highway District Board of Directors, except to state that that action will be based on what I, as an elected Supervisor, believe to be for the best interests of San Francisco.

Resignation of Supervisor Havenner as a Director of the Golden Gate Bridge and Highway District.

Supervisor Havennner presented the following:

February 1, 1929.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco.

Gentlemen: Attached hereto is a letter from the Honorable Richard J. Welch, M. C., Washington, D. C., dated January 25th, 1929, referring to the Rincon Hill transbay bridge.

I respectfully request that this letter be read to the Board in open meeting and that the same be spread upon the Journal and made a part of the record.

Respectfully,
(Sgd) JAMES ROLPH, JR., Mayor.

January 25, 1929.

Honorable James Rolph, Jr., Mayor of San Francisco, Calif.

My dear Mayor: As requested in your telegram of January 24th, I am mailing you under separate cover three copies of the brief of our opponents. If I am able to obtain more copies I will send them to you.

I have carefully noted the unanimous decision made by the conference, which you described so well, and I will act accordingly. I have already wired to Director of Public Works Meek, requesting fifty copies of the bill providing for State control of the Rincon Hill transbay bridge. I intend, during the limited time of the present session remaining, to present these copies to the members of the Committee on Interstate and Foreign Commerce and other Congressional Representatives and to discuss with them the change of policy provided for in the bill. There has already been favorable comment here on this change of policy.

Regardless of the no uncertain manner with which Chairman Parker told me that no contested bridge matters would be heard during this short session, I learned, to my utter surprise, that he now has consented to grant a hearing on a Delaware bridge project during the coming week. When I reminded him of his unsolicited positive statement and told him that I had conveyed his message to San Francisco city officials, he said he was perfectly sincere in his intention at the time, but later felt constrained to make an exception in the matter of the Delaware bridge on account of unusual circumstances in that particular case. I immediately demanded what consideration he was going to give the Rincon Hill bridge bill, inasmuch as the Delaware project is also opposed by the War Department. He thereupon called my attention to the change of policy providing for State control and said that he felt that we ought to be willing to wait until that policy had been definitely determined by the California Legislature.

The question of whether we can get more favorable action from the next Congress than from the present one is beside the point. We are going to get a bridge. Yet the fact still remains that a great amount of hard intensive campaigning must be done to overcome the opposition, particularly because of the injury already inflicted here by the active representatives of our adversaries. We must also bear in mind the powerful influence that unfavorable recommendations of the Army and Navy Departments have on members of Congress in matters of this kind.

In my recent appeal for assistance, I did not have in mind a great large delegation or a clamorous demonstration at this time. What I did want was a few men, well qualified for intensive work, to assist me in my continued efforts as referred to in your telegram. When you have a fight to make, especially a fight for a just cause like ours, it should be carried on unceasingly.

You will recall the good fight that we made many years ago for the India Basin (Islais Creek) development and bond issue and the terrible things that were said and done to impugn our motives and thereby defeat the project. Chief Justice Matt I. Sullivan prepared the bills and I had the honor of sponsoring them in the State Senate. Then came our defeat at the referendum. I do not need to remind you, for it was you who led the fight, that we did not wait until the next Legislature convened to make one big demonstration. Instead of waiting, we immediately proceeded to lay the ground-work for an intensive campaign two years in advance of the next session of the Legislature. Long before the next election. when the bond issue would have to be approved by the people of the entire State, you, Judge Sullivan and Uncle George Center went down to Los Angeles, San Diego and other Southern California cities to win their support for the project. The late beloved Father Crowley, our good friend George Renner and myself went to Vallejo, Stockton, Sacramento, Redding and Red Bluff and appealed to their newspapers and civic organizations to accord justice to San Francisco. As you and I both know, and as

some people have never been able to understand, all of that work was done at our own expense. Our reward was the personal satisfaction in having done something big for San Francisco.

As there were then, so there are now, those who refuse to believe that men can be actuated by unselfish motives to make personal sacrifices for the public good. It is much to be regretted that there still exist such critics who persist in impugning the motives of conscientious and progressive men.

I do not mean to intimate that men should come here to Washington at their own expense. What I am convinced of is that, if we can arouse the same spirit that animated our little group twenty years ago, the Rincon Hill bridge is sure to become a reality.

With a harmonious working understanding among San Francisco's national, state and municipal legislators this and many other much-needed things can be accomplished for our city. We should connect San Francisco with her natural hinterland—the San Joaquin, Sacramento, Santa Clara, Napa and Sonoma valleys—by a comprehensive system of highways and bridges. San Francisco has been bled white industrially. We should secure control of our harbor, the city's greatest asset, extend our seawalls and reclaim our tide lands so as to provide for and keep commerce and industry on the San Franisco Peninsula.

Yours very sincerely,
(Sgd) RICHARD J. WELCH, M. C.

P. S.—If you choose to read this letter to the Board, may I request that it be printed in the Journal and made a part of the record?

On motion of Supervisor Hayden, seonded by Supervisor Suhr, action on the subject matter as above was *laid over one week.*

Communication From the Secretary of State, Referring to Approval of Charter Amendments by the Legislature.

The following communication was received from the Secretary of State, read by the Clerk and ordered *filed*:

January 30, 1929.

Mr. J. S. Dunnigan, Clerk, Board of Supervisors, City Hall, San Francisco, California.

Dear Sir: Senate Concurrent Resolution No. 13, approving nine amendments to the Charter of the City and County of San Francisco, will not be filed in this office until the Legislature reconvenes. The Secretary of the Senate advised me that the resolution was not returned from enrollment until after the Legislature recessed.

Very truly yours,
FRANK C. JORDAN, Secretary of State.
By (Sgd) CHAS. J. HAGERTY, Deputy.

When this resolution is filed three certified copies will be immediately mailed to you.

The subject matter was discussed by Supervisors Marks and Havenner.

Supervisor Havenner stated that he had been advised that the filing of the Charter amendments by the Secretary of State was purely clerical action.

Opinion of the City Attorney, Rezoning of Property Reported Out of Old Planning Commission and Pending When the Charter Amendment Became Effective.

The opinion of the City Attorney advising in the matter of rezoning property affected by the recent Charter amendment was presented and read by the Clerk and ordered *spread at length in the Journal*, as follows:

February 4, 1929.

Subject: Effect of Recent Charter Amendment Establishing a Planning Commission Upon Existing Application for Change of Zone.

Dear Sirs: Your Board has asked that you be advised as to your power to adopt an ordinance rezoning property when the application has been reported out of the old Planning Commission, and was pending before your Board when the Charter Amendment adopted by the people in November, 1928, became effective.

Opinion.

On November 6, 1928, the electors of the City and County approved an amendment to the Charter providing for the appointment of a City Planning Commission. The amendment was a distinct departure from the theretofore Charter provision relative to the Commission, and not only provided for the membership of the Commission but also provided for a complete scheme for planning and rezoning.

I am advised that this amendment was ratified by joint resolution of both houses of the Legislature on January 17, 1929.

Section 8 of Article XI of the Constitution of California provides how a charter amendment shall be ratified. The language is as follows:

"If a majority of the qualified electors voting on any such amendment vote in favor thereof, it shall be deemed ratified and shall be submitted to the Legislature at the regular session next following such election, and approved or rejected without power of alteration in the same manner as herein provided for the approval or rejection of a charter."

The provision of the section relative to the approval of a charter is as follows:

"The Legislature shall by concurrent resolution approve or reject such charter as a whole without power of alteration or amendment, and if approved by a majority of the members elected to each house, it shall become the organic law of such city, or city and county, and supersede any existing charter and all laws inconsistent therewith."

In view of the language of the Constitution, I am of the opinion that the Charter amendment approved by the people in November last is now in effect. Such being the case, planning and zoning is now governed by its provisions.

Section 3 of the amendment provides:

"The Commission hereby created shall succeed in office the City Planning Commission now existing, and all matters pending before the existing Commission shall have the same status before the Commission herein created, *and all zoning classifications in effect at the time this amendment becomes effective shall remain in force and effect unless and until changed as provided in Section 4 of this Article.*"

Section 4 of the amendment referred to provides how property shall be rezoned and what steps shall be taken to initiate the rezoning. It gives to your Board appellate jurisdiction in zoning matters, and then only upon the petition of twenty per cent of the property owners affected by the rezoning. The present matter which is pending before you did not originate before the Planning Commission as provided by Section 4 of the amendment, nor does it reach you in the manner provided by that section.

I am therefore of the opinion that the becoming effective of the Charter amendment mentioned prevents your Board from taking any action upon the rezoning ordinance now before you.

Sincerely,

JNO. J. O'TOOLE, City Attorney.

Introduction by the Mayor.

His Honor the Mayor introduced to the members of the Board Mr. E. I. Kickley, banker from the City of Portland, now visiting San Francisco.

The gentleman addressed the Board and expressed it his pleasure at being present during session of the Board, and further expressed his pride in the City's growth and its beautiful buildings, and stated

that he considered the City the New York of the West, and extended his best wishes to the officials and citizens of this City.

His Honor the Mayor responded in fitting words and announced that a contemplated visit of prominent citizens and business men to Portland would be made by special train during the latter part of April.

Resolved, By the Board of Supervisors of the City and County of San Francisco, that the action of the League of California Municipalities, at its last meeting, requesting the appropriation by the State of not less than $65,000 for the establishment and maintenance during the next biennium of the proper and necessary facilities for investigations and research in methods of sewage and wastes disposal and treatment, be and the same is hereby endorsed and approved, and this Board does hereby respectfully urge the Legislature of the State of California to adopt suitable legislation to accomplish these purposes.

Supervisor Gallagher moved that the privilege of the floor be granted to Mrs. Guberding.

Mrs. Guberding voiced objections to the act creating an assessment against her property situated within the district. She thinks the cost would be confiscatory and a great hardship upon the property owners and that the City should assist in the cost.

Mr. Wrigley, attorney for the San Francisco Dock Company, explained the contract of sale of its properties and the conditions set forth therein and said that the contract of sale has been placed in escrow.

The Clerk read a communication from the San Francisco Dock Company in reference to the sale of the properties.

Supervisor Gallagher renewed his motion made at a subsequent meeting as follows:

That the Board of Supervisors endorse and favor and ask for the passage of the bill now pending in the California State Legislature, having for its purpose the establishment of the reclamation district in the so-called South Basin and South Basin Canal District.

The question being called on the motion, the said motion was *adopted* by the following vote:

Authorizing the Mayor to Execute an Agreement With the Spring Valley Water Company in re Property Required for Widening of Junipero Serra Boulevard.

Also, Bill No. 8873, Ordinance No. ———— (New Series), as follows:

Authorizing and directing the Mayor, in the name and on behalf of the City and County of San Francisco, to execute an agreement with Spring Valley Water Company for escrow and immediate possession of property required for the widening of Junipero Serra boulevard and the widening and extension of Nineteenth avenue.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Mayor is hereby authorized and directed to execute, in the name and on behalf of the City and County of San Francisco, an agreement with Spring Valley Water Company, a corporation, providing for escrow and immediate possession, as per the following terms:

"This agreement, made and entered into this ..... day of February, one thousand nine hundred twenty-nine, by and between Spring Valley Water Company, a corporation organized and existing under and by virtue of the laws of the State of California, whose principal place of business is in the City and County of San Francisco, State of California, and hereinafter designated as the "Water Company," the party of the first part, and City and County of San Francisco, a municipal corporation, hereinafter designated as the "City," the party of the second part, witnesseth:

Whereas, on the 10th day of October, 1928, the Water Company offered to convey to the City, without cost, certain lands in the City and County of San Francisco required by the City for the widening of Junipero Serra boulevard and the widening and extension of Nineteenth avenue, consisting of approximately 23 acres, a portion of which lands are subject to the present Junipero Serra boulevard easement and the easement for the "M" line of the Municipal Railway, and to sell to the City the remaining 28.79 acres required for the said projects for the sum of one hundred fifty-one thousand sixty and 00/100 dollars ($151,060.00), and the payment by the City to the Company of the sum of twenty thousand three hundred ninety-five and 48/100 dollars ($20,395.48), for account of damages to adjoining lands, making a total of $171,455.48, subject to certain terms and conditions mentioned in said offer, one of said conditions being as follows:

"The City shall, by ordinance duly and regularly to be passed by the Board of Supervisors, change the classification applicable to the land bounded by Sloat boulevard on the north, by Junipero Serra boulevard on the east, by Old Ocean House road extended on the south, and by Nineteenth avenue extended on the west, to the end that such property may be classified as a commercial district within the provisions of Section 5 of Ordinance No. 5464 (New Series) of the City and County of San Francisco. The Water Company shall not be obligated to convey to the City the properties hereby offered for sale unless and until such ordinance shall have been passed by the Board of Supervisors and shall have become of full force and effect. At the election of the Water Company the deed whereby the said properties shall be conveyed to the City may provide, by way of express condition subsequent, that in the event that at any time following such conveyance the said land referred to in this paragraph shall be so reclassified that the same cannot be used for purposes permitted within commer-

cial districts under Section 5 of said Ordinance No. 5464 (New Series), title to the properties so conveyed shall immediately and ipso facto revert to the Water Company"; and

Whereas, by Resolution No. 50304 (New Series), adopted January 21, 1929, the Board of Supervisors accepted said offer and agreed to all of the terms and conditions mentioned in said offer; and

Whereas, the Board of Supervisors, on January 21, 1929, passed to print an ordinance, and on January 28, 1929, finally adopted said ordinance, commercially zoning the land mentioned in the condition specified above; and

Whereas, it now appears that said ordinance is invalid, for the reason that on January 17, 1929, the State Legislature of the State of California, by joint resolution, ratified a Charter amendment passed by the people of San Francisco at the election held in November, 1928, which Charter amendment removed from the Board of Supervisors the authority to change the zoning and placed the authority for the same in the hands of a City Planning Commission; now, therefore, in consideration of the mutual covenants herein contained, and of the conformance thereto by each of the parties hereto, the said parties mutually promise and agree as follows:

First: The Water Company agrees to execute a deed conveying to the City the parcels of land mentioned in the written offer of October 10, 1928, free and clear of all encumbrances, and deposit the same in escrow with the California Pacific Title & Trust Company, or other escrow holder agreeable to both parties hereto, with instructions to the said Company or escrow holder to record the same upon receipt from the City of the said mentioned sum of one hundred seventy-one thousand four hundred fifty-five and 48/100 dollars ($171,455.48), for the account of the Water Company, and the deposit with said Company of a certified copy of the order of the said City Planning Commission changing Ordinance No. 5464 (New Series), so as to place certain portions of the Spring Valley Water Company's properties in the commercial zone, said properties to be as those shown on the map attached hereto and marked Exhibit "A"; and further, that the Mayor of the City and County of San Francisco shall sign said ordinance, and the time for protest and appeal shall have elapsed, or in the event of appeal the City Planning Commission resolution has been affirmed and all matters and things have been done to classify said mentioned property in the commercial zone.

Second: The Water Company further agrees upon the deposit with the Title Company or escrow holder previously agreed upon of the above-mentioned sum, to immediately give possession to the City of the property mentioned in the above deed, and it is hereby further agreed by both parties that the granting of said permission does not constitute a waiver on the part of the parties of the first part, and that any action hereinafter filed may be prosecuted to final judgment. Said Water Company shall have the privilege of arranging that said deposit shall bear interest and said interest shall be payable to the Water Company upon consummation of this transaction; provided, in the event of failure of said rezoning and consequent necessity of establishing the price to be paid by the City to the Water Company for said land by eminent domain or other proceedings, said deposit shall remain until transfer of title pursuant to such proceeding, and the interest, if any, allowed on said deposit shall be paid to the Water Company in addition to principal purchase price fixed in said proceeding.

Third. The Water Company further agrees that as soon as the City Planning Commission is regularly constituted that it will make application to said City Planning Commission for the zoning as shown on the map attached hereto and marked Exhibit "A", and will use every endeavor to secure action on the same.

Fourth: The City agrees to deposit with the California Pacific Title & Trust Company, or escrow holder previously agreed upon, the above-mentioned sum in payment for the above-mentioned deed and accept

immediate possession of the land mentioned in said deed subject to the following conditions:

(A) That it is distinctly understood and agreed that the payment of the above-mentioned sum is contingent upon the zoning mentioned above, and that in the event that the said City authorities do not pass the necessary changes in the zoning law that the offer to purchase said property at the price herein agreed shall become null and void, and the permission to occupy the property shall not be prejudicial in any way, either at law or in equity, to whatever rights to compensation the Water Company may have resulting from the acquisition of the said properties by the City, nor shall the said price herein specified be used by either party hereto as an evidence of the value of said property.

(B) In the event that the City Planning Commission does not agree to the proposed zoning change within one hundred twenty (120) days from date hereof, and the compensation for said properties shall not be agreed upon within thirty (30) days thereafter, the City agrees within thirty (30) days thereafter to commence and file the necessary eminent domain proceedings by the City for the acquisition of the said properties and the Water Company shall have the right to interpose such defense to action as it shall deem proper, notwithstanding this agreement.

(C) In the event of failure of the City to file said eminent domain proceedings within the thirty (30) day period above provided for, or in the event such proceedings are so filed and thereafter abandoned by the City, the Water Company may thereupon commence and prosecute to final judgment an action upon this contract for the determination of the reasonable value of said land, and upon such judgment becoming final the amount so fixed shall be paid by the City to the Water Company concurrently with the transfer of title by the Water Company to the City.

In witness whereof, the party of the first part has caused these presents to be executed in duplicate by its President first thereunto duly authorized and its corporate seal to be affixed thereto, and the party of the second part has caused these presents to be duly executed in duplicate by its Mayor first thereunto duly authorized and its corporate seal to be affixed and duly attested by the Clerk of its Board of Supervisors, all as of the day and year first hereinabove written.

SPECIAL ORDER—3 P. M.

In Memoriam for Dr. Frederick W. Clampett.

Supervisor Hayden: Mr. Mayor, by virtue of a resolution adopted last Monday, a resolution in memoriam for the late Dr. Frederick W. Clampett, the hour of 3 o'clock was set aside on this day for the purpose of giving our citizens and admirers of Dr. Clampett, as well as the Mayor and Board of Supervisors, an opportunity to pay a slight tribute of respect to his memory. We have invited Mr. William F. Humphrey, a member of the Park Commissioners, as one of the eulogists on this occasion. I therefore ask that you present Mr. Humphrey to the Board, under these circumstances.

The Mayor: Gentlemen of the Board, my fellow citizens: As Supervisor Hayden has stated, by unanimous vote of the Board of Supervisors this hour was set apart for paying our respects to the memory of Dr. Frederick W. Clampett. Are there any immediate relatives of Dr. Clampett's family present?

The committee having these memorial services in hand has chosen one of our leading active fellow citizens to deliver the eulogy on this occasion. And I take very great pleasure in presenting to you our friend, our Park Commissioner and one of our outstanding citizens, the Honorable William F. Humphrey.

Mr. William F. Humphrey: Mr. Mayor, I thank you for your most complimentary introduction. We are assembled here today to offer the tribute of our affection to the memory of a man who was successively a clergyman, a soldier, a writer—*but always—in every station of life*, a cultured, vigorous soul working and striving for the betterment of his fellowman and the advancement of the city of his adoption.

Every man has a mission—a mission crowded with obligations. The fulfillment or nonfulfillment of the obligations heralds its success or denounces its failure. When this mortal life is over it will avail little that you have the wealth of Croesus or the power of ancient Kings, if you have been false to your mission. For it has been truly said by a distinguished orator: "In the democracy of the dead all men are equal. There is neither rank nor station nor prerogative in the republic of the grave. . . . Dives relinquishes his millions and Lazarus his rags. The poor man is as rich as the richest and the rich man as poor as the pauper." Here Nature renders its final decree in equity adjudging whether you have been true or false to your mission.

It is true no man can see the end from the beginning, but every man can make his course honorable from the beginning to the end by following closely the pathway of his mission.

By the favor of your invitation, I am privileged to speak of a man whose mission in life was to increase the sum of human happiness by driving away sorrow and misfortune from the homes of his fellow men. His fulfillment of that mission earned for him the commendation of his contemporaries and we hope an eternal home in the mansion beyond the stars.

Over sixty-eight years ago Frederick William Clampett was born in Waterford, Ireland. His early boyhood reflected in the athletic activities of his later life was one of unbounded energy and athletic authusiasm. Strong and spare of frame he was an accomplished athlete and stood out as a leader among his companions. This energy also vented itself in an intensive study of Greek and Hebrew when he was not yet fourteen years of age.

He graduated from the graded schools with honors and entered Trinity College at the City of Dublin to study medicine. While engaged in these studies he heard the call of the ministry and shaped his collegiate course accordingly. At the age of twenty-one years he was graduated from Trinity College as a Master of Arts. Following his ordination he was called to Northern Ireland; later New York, then Springfield, Illinois, then Baltimore, Maryland and finally in the year 1900 to San Francisco. Here he enjoyed the most active and fruitful period of his career. It was the city of his love. He was in the forefront of every movement for its advancement and no Native Son gave it more loyal devotion. Obedient to the precept of the poet Virgil that the "noblest motive was the public good", he worked tirelessly for the city and country of his adoption.

He radiated patriotism. During the World War his burning words hastened many to the defense of our Flag. He did not encourage only by words, but by deeds. When the War Department refused him enlistment on account of his advanced years, he would not be denied. He went to Washington and a personal appeal to President Wilson won for him a commission as Chaplain of the 144th Artillery Regiment, a regiment in which his two sons had already enlisted. He remained in Europe until his regiment was returned to this city and mustered out of service. Shortly after, and in the year 1920, he retired from the ministry, and thereafter until his death devoted himself to literary efforts, interrupting his labor only to answer call of distress, to visit the sick or to bury the dead.

Some may prefer to praise his service in the ministry; some his record as a soldier; some his efforts in the literary field, but I prefer to speak of Dr. Clampett as a man—a simple, humane, sympathetic, intelligent and God-fearing man.

Of splendid physique, rare culture, with a heart responsive to every human emotion and sympathetic to every appeal of misfortune, Dr. Clampett, in or out of the ministry, was a worshipper of liberty and a friend of the oppressed. He knew the world as it is—not as it is pictured. His education; his years in the ministry: his comprehensive reading; his wanderings in Europe and America; his splendid conversational powers; his association with men of every station in life gave him such an insight into life that he was able to plant the seeds of love and righteousness in soil that would have been unknown to him as a minister. He never feared that contact with the most wretched might contaminate him, and his daily life was a sermon that enriched all who knew him and was more effective than many sermons from the pulpit. Though retired from the ministry he was always ministering to those who needed assistance. Within an hour of his death he stood at the grave of a departed friend and prayed eternal rest unto his soul.

Dr. Clampett never had nor cared for the luxuries of life, and from his own trials well knew that the "roses of life grow best about the cross." With the poet Bell we may say that

"Such souls forever live
In boundless measure of the love they give."

He worshipped at the altar of the Episcopal Church, but sincerely

respected the faith of others. He was tolerant in religion and in all phases of life. But he was ever impatient with bigotry. He held no man should be proscribed or discriminated against in public or private life on account of his religious belief or faith. He was a manly man. He never claimed perfection, and yet no man earned clearer or better title to the love and respect of his fellow men. Telescopes have been made which discover spots on the sun. But no lens has been made that will discover a spot on the honor or loyalty of Dr. Clampett.

He did not fear death. The blameless do not hesitate to die. He sought neither honor nor glory, but epitomized his feelings by often quoting from our martyred President, Abraham Lincoln:

"Die when I may, I want it said of me by those who knew me best that I always plucked a thistle and planted a flower where I thought a flower would grow."

The dark lives brightened by his ministrations, the oppressed made happy by his counsel and assistance, attest the flowers he sowed where formerly thistles grew. It is impossible to count the good deeds that will brighten his pathway to the other shore. Strange thought it may seem, no words that have ever been expressed could be more appropriate on this occasion than those expressed by Robert Ingersoll at the grave of his brother. Although we may not endorse Ingersoll's religious views, we must acknowledge his eloquence when, his heart wrung with sorrow, he gave expression to sentiments so descriptive of the life of the distinguished Christian we mourn today:

"He added to the sum of human joy and were everyone to whom he did some loving service to bring a blossom to his grave, he would sleep tonight beneath a wilderness of flowers."

When the recording angel lists the names of those who have best served humanity and their fellow men, far up on that list, yes, crowding the top, will appear the name of Frederick William Clampett. May he rest in peace. May God soon give to San Francisco another Dr. Clampett.

Supervisor Hayden: Mr. Mayor.

The Mayor: Mr. Hayden.

Supervisor Hayden: And members of the Board: We have here today a very dear friend of the late Dr. Clampett in the person of Dr. Alexander S. Keenan, a member of the Board of Health. I now ask you to present him to the Board so that he may have an opportunity to say a few words in the memory of Dr. Clampett.

The Mayor: Gentlemen of the Board and my fellow citizens: Another prominent and active citizen has been chosen by the committee to add another word, so beautifully delivered in the eulogy just uttered, and I present to you Dr. Alexander S. Keenan.

Dr. Alexander S. Keenan: Your Honor the Mayor, the honorable Supervisors of San Francisco, invited guests, ladies and gentlemen: It is an honor to speak before this Board and in this hall, this beautiful hall, the seat of government of San Francisco. It is an honor to speak here in memory of dear Dr. Clampett. He was your friend and my friend. I grieve with you because you loved him. I grieve with his dear wife and his family because they loved him. I grieve with that great number who read his weekly message, words of comfort and wisdom and optimism. I grieve with that great multitude of radio land who weekly listened to his eloquent voice, always bringing cheer and hope and kindness to that great audience. I grieve with all the people of this city because they loved him. I grieve with the people across the ocean, yes, in France, in England and in Ireland, when they read of his death, because they loved him. I am sure that God must have loved him, because He made him so lovable, and He endowed him with so many qualities and virtues of Himself—Christlike qualities.

Dr. Clampett loved humanity. He was intensely human. He was always, not now and then, but always doing Christlike work, relieving the poor, visiting and helping the sick, comforting the afflicted,

and bringing hope to those who were helpless or in distress. Such is the work of a good man, and if we can say of a man that he has reached eminence in any one thing we can surely say that of Dr. Clampett, because he reached eminence in many things. He was, as Mr. Humphrey told you, for all his adult life a minister of the gospel, and for thirty years he was a leading pastor in the leading churches of his denomination in New York, in Springfield, in Baltimore and here in San Francisco.

He was, besides, when this country needed soldiers, a soldier priest who commended himself to his men and received the commendations of his government for his helpful, encouraging work among the soldiers of his regiment. He was, as you know, the writer whose articles were syndicated and sent throughout the country, every article bringing kindness and hope and cheerfulness and humanity into the midst of those where the paper was read. He was the orator and public speaker who not only spoke over the radio but from the public platform and took part in every civic affair. You will miss him, Mr. Mayor, when you are looking for a man of his kind to put on a committee, because the doctor was foremost to the front, and always doing the work, whether it was for a charity or for a festival or for a private concern or for the public welfare.

Gentlemen, they do not make such men every day. The doctor lived on his life to the full, rounded out and lived on almost the full span of man, and when he reached that time he did not die by disintegration, or by piecemeal; he died in his fullness, as any man of that character would wish to die. He died in the fullness of his intellect and with his physical characteristics not changed. And he died, ladies and gentlemen, in the line of duty. Yes, he died in the harness; he died at his work, as any man of that character would wish to die. I say, what a beautiful death for a good man. And he died doing the work of his ministry and doing the best part of that work. He was coming home from the graveyard where he had administered the last rites of the church to a departed friend, and as he came along Christ met him, and that was the way it was, Christ met him on the way. The gentle Christ put out His hand and touched the good doctor's shoulder and Dr. Clampett stopped. "Your life work is done; you have hoed out your row. I am satisfied; come, come with me to the everlasting life and to the glory that awaits you there. Come."

Supervisor Hayden: Mr. Mayor.

The Mayor: Mr. Hayden.

Supervisor Hayden: We have with us today one of our city officials in the person of our Chief Engineer, Mr. O'Shaughnessy, also a very dear friend of the late Dr. Clampett, and I commend him to you for presentation to this Board.

The Mayor: Gentlemen of the Board and my fellow citizens: A member of the administration of public affairs of the city was a lifelong friend of Dr. Clampett's, and I take very great pleasure in presenting to you your engineer, the Honorable M. M. O'Shaughnessy.

Honorable M. M. O'Shaughnessy: Mr. Mayor, gentlemen of the Board, fellow citizens: I cannot add very much to the remarks of Mr. Humphrey and the Doctor. It was my privilege to be a friend of Dr. Clampett's for over sixteen years, and many of his excellent qualities have been emphasized by the various previous speakers. He was the friend of the rich and the poor alike. At the church the other day, Grace Cathedral, there were many poor people in the aisles as well as the people massed in the center of the hall. He was a fine citizen, a fine man, sterling, true. We all respected him. He was not afraid to show his colors, either week days or Sundays. And very often I met him on his Sunday walks and he had a nice blackthorn in his hand, which increased my esteem for him as a fellow Irishman. I do not think I could add anything more, Mr. Chairman, to the words of the previous speakers. I thank you.

Supervisor Hayden: Mr. Mayor, I will kindly ask you now to carry on this eulogium. It is now in your possession and the membership of the Board.

The Mayor: Gentlemen of the Board and my fellow citizens: The Board of Supervisors, by resolution, dismissed their regular weekly business of the city to pay a tribute to one of the outstanding, highly-respected, upright citizens of this city who passed away. It is not often that any legislative body will recognize the activities of a citizen not in public life, but today a marked example has been set by the Board of Supervisors of San Francisco in having given the time to listen to and to join in the encomium of praise and admiration that have been expressed today by the eulogists on the life and the character of Dr. Frederick W. Clampett.

To add to what has been said, particularly by Mr. Humphrey, might take away from the high, brilliant thoughts expressed by him, in paying the tribute that has been paid to Dr. Clampett. Dr. Clampett was a rare citizen of our city. I listened at Grace Cathedral last week to the eulogy delivered by Dean Gresham, and he expressed in remarkable words all that could be said about this departed citizen. He spoke of his life in Ireland, his progress in America and his life for the advancement of San Francisco. Mr. Humphrey and Dr. Keenan and Mr. O'Shaughnessy today have added to the brilliancy of those words.

There was something about Dr. Clampett that attracted you to him. There was a magnetic feeling in him which drew everyone who had the opportunity of meeting him to him. And he had a handclasp that was understood the moment you felt it. And to have known him was to make you feel better in the knowing.

There was something about his home life and his family life that is a lesson to all families. He was the father of five sons and one daughter, a united family, a family where the brothers and the sisters always lived up to the principles of the Fifth Commandment, "Honor thy father and thy mother, that thy days may be long in the land which the Lord thy God giveth thee." Oh, if there were more families like the Clampett family; families where the father and mother are respected and honored by the children and where the children cling to the family fireside and exhibit the radiance that comes from the home life of a family like that of Dr. Frederick W. Clampett. The lessons in life that came from the home, and from the sanctity of the home, and from the devotion and love and affection of the children toward the parents will remain as a living example in the life of Dr. Frederick W. Clampett.

He was a builder, and for all the big things that meant for the advancement of San Francisco. He was out in the forefront at all times for the advancement of this mighty city. Any public official that wanted advice or help or suggestions could get it at any time from Dr. Clampett. He was a minister of the gospel, and he upheld, in the highest degree, the honor and the dignity of the cloth. He never meddled with trifling matters. He knew the life of a big city, and he knew all its problems. He knew the problems of the Police Department, he knew the problems of the Board of Supervisors, he knew all the anxieties that go in the holding of a public office. And he never was a carping or a critical one on the outside, criticizing everything that was done. He would never criticize unless he had a substitute to offer. He never wanted to be a police officer minister, but he upheld the honor and dignity of his profession and all that is high and noble in the advancement of a mighty city.

He was a man of vision and broadness of mind; he knew that in a mighty city there was a place for everything and everything in its place. And no wonder that the Board of Supervisors meet today and invite the eulogists who are here to pay tribute to the memory of that man. His voice was ever fresh, his voice and thoughts were always vigorous, and he had an understanding that he imparted to all who knew him. I miss him because he was a friend. I miss him because

I could go and get advice from him. I miss him because of his fine, noble, sterling character as a citizen. And I admired him because he knew there was a place in this world for every man and every woman, no matter what their religious feelings were. It made no difference whether you were a Jew or a Catholic or a Protestant, it was all the same to Dr. Clampett, and when he went out in the field of battle his mind was made up that he did not care who the boy was that was wounded, he was always there to administer to the Jew, to the Catholic, to the atheist, to the Protestant, and to all. We shall miss him, gentlemen of the Board and my fellow-citizens. He was rector of Trinity Episcopal Church. He did his part in following out the foundation of that church laid in the early days of the pioneers, and he upheld the dignity of old Trinity Church and the religion to which he belonged. I have heard the archbishop, I have heard the Jewish rabbi, I have heard the Protestant minister all speak in glowing terms of the life and the character of Dr. Clampett. I pay San Francisco's respects, as the spokesman of the city, to his memory. May what he did live long in our minds. We are unable to build a monument of granite to him, but in our minds, and in the minds of all who had the opportunity to meet him, will be built a monument that will live as long as life and memory lasts. The rare character of Dr. Clampett did us all good here in this city. I join with the eulogists in saying, may his soul rest in peace. And where he is now I am sure the Almighty will say to him, "Well done, thou good and faithful servant, enter in and take a place by my side and minister with me for the helping of mankind."

Supervisor Hayden: Mr. Mayor, representing the Board, will you call on two Supervisors? First, Supervisor Jesse Colman, if you please.

The Mayor: Gentlemen of the Board and my fellow-citizens, I take very great pleasure in calling upon and presenting to you the Honorable Jesse Colman.

Supervisor Colman: Mr. Mayor and fellow-citizens, I may briefly relate my personal contacts with our departed friend. It began after his return from the army, when we were both members of San Francisco Post No. 1 of the American Legion. Dr. Clampett was the chaplain of the post and as such was the chairman of the Welfare Committee. His duty was to help any comrade who was in distress of any kind. He would visit his family and his people and give them relief. In doing this he won the love of every Legion man in San Francisco. He would talk to us about tolerance and he would preach to us a peacetime patriotism which was even more important than war-time patriotism. Later on, when he became a writer, his duties frequently brought him to the Board of Supervisors. I can remember him very well sitting in that corner, listening with interest to our deliberations, and the next day his writings would appear in the press. He wrote fearlessly and justly, too big for personalities, but, nevertheless, expressing his sentiments for the good of San Francisco as he understood the needs of his city.

I can add nothing to the beautiful thoughts already expressed. In the loss of Dr. Clampett every creed in San Francisco has lost a warm friend.

Supervisor Hayden: I will now ask you, Mr. Mayor, to call on Supervisor Marks for a few words.

The Mayor: Gentlemen of the Board and my fellow-citizens, I take very great pleasure in calling upon and presenting to you the Honorable Milton Marks.

Supervisor Marks: Mr. Mayor and gentlemen of the Board: It seemed to me, as I listened to the eulogies delivered today, that it was peculiarly significant that you selected, to deliver a tribute to the memory of Dr. Clampett, a lawyer, a doctor and an engineer. Mr. Humphrey's profession is devoted to the ascertainment of truth and to the administering of justice; Dr. Keenan's profession to the alleviating of the sufferings of the sick and to removing distress from those who are afflicted, and Mr. O'Shaughnessy's profession to seeing to it that the materials that go into our structures are substantial, that they are true and plumb. It seems to me, Mr. Mayor, that Dr. Clam-

pett, eulogized by these three men representing these professions, embodied in his activities all of those characteristics; that his life work was to administer justice, to protect the weak against the strong and the arrogant, at the same time to relieve the afflicted and to cure, if possible, their defects, and, more important than that, to see that the foundations of character were strong, and that the lives that were reared upon those foundations were true and plumb. I take it, Mr. Mayor, that when a spirit such as that of Dr. Clampett is taken from our community there is a gap that it is hard to fill. We can only look back upon his activity here as a minister of optimism, because he was that, with a feeling of veneration and a feeling of admiration, and to take, from his activities here over a period of many years, some spirit and some encouragement to go forward with the life of this community along the lines that he would choose. I think, Mr. Mayor, that we do ourselves honor and credit and distinction to honor the memory of one in whose church those of all creeds might sit down to look to one common deity, and from whose lips there came utterances which might be heeded by all of us in San Francisco, regardless of our creeds and regardless of our religious views.

Supervisor Hayden: Mr. Mayor, it would be well now if you should call for volunteers from the membership of the Board. The speakers that I have named are the selection of the committee. An invitation from you to the full membership of the Board is now in order.

The Mayor: Are there any other members of the Board of Supervisors who would like to honor themselves in paying a tribute to Dr. Clampett?

Supervisor Hayden: Now, Mr. Mayor, I move that a transcript of these proceedings be suitably prepared and a copy of it presented to the wife of the late Frederick W. Clampett. I make that as a motion.

Supervisor McSheehy: I second the motion.

The Mayor: Will you pardon me if I trespass upon your program?

Supervisor Hayden: With pleasure.

The Mayor: It is something I very rarely do, to interfere, in any way, with the set program. It is not fair to the one who has been asked to say a word, but I am sure that it would please the Clampett family, I am sure that it would please all of the friends of Dr. Clampett, I am sure that it would please the bench, if the distinguished judge who adjourned his court this afternoon in respect to the memory of Dr. Clampett, would close the memorial this afternoon, so that in the record going to Mrs. Clampett and to her family and her friends and to his friends the words of Judge Thomas Graham appear.

Judge Thomas F. Graham: Mr. Mayor and members of the Board of Supervisors and ladies and gentlemen: Like those sitting in the lobby, I came down here to listen. First, I desire to compliment the Board of Supervisors of this city and county for making this occasion possible. The eulogies of Mr. Humphrey, Dr. Keenan and Mayor Rolph were so beautiful and so eloquent that there is nothing remaining to be said other than this: that in the untimely death of Dr. Frederick William Clampett the people of the State of California have suffered a distinct loss, and the people of San Francisco have lost a well-beloved citizen. As the Mayor said, we cannot build a monument of granite to his memory, but we can say this: that no one ever named Dr. Clampett but praised him; no one ever knew him but to love him. I thank you.

Supervisor Hayden: Might I suggest that you thank the gentlemen who responded to our invitation and participated in these ceremonies today, from the chair.

The Mayor: At the suggestion of Supervisor Hayden, and in the name of the Board and the Mayor, we thank you, Mr. Humphrey, we thank you, Dr. Keenan, we thank you, Mr. O'Shaughnessy, we thank you, Judge Graham, and I thank the members of the Board for the honor you do yourselves, for the honor you do the city, and for the brilliant words of kindly thought to the one who has gone, expressed by you and which lives in the record today.

It has been moved by Supervisor Hayden that the record of these memorial services be transcribed and a copy sent to Mrs. Clampett and a copy preserved in the minutes of the Board of Supervisors.

Supervisor Hayden: And, Mr. Mayor, I might add, a copy to each of the gentlemen participating. I think they would like to have such a copy in their possession.

The Mayor: That will be added, Mr. Clerk. All in favor of the motion will please rise out of respect to the memory of Dr. Clampett.

(All the members of the Board of Supervisors present rise.)

The Mayor: It is unanimously carried and so ordered.

two to six years and that they all were citizens and voters in San Francisco.

Ray Vanderford, attorney representing the Shell Oil Company, requested the first resolution, which seeks to deny the transfer of permits from the Shell Oil Company to its lessees, be voted down and that the request of the company be favorably acted upon.

James Hanley, attorney representing 130 independent oil stations, favored the committee's recommendation on the Shell Oil Company's applications and urged its adoption.

M. Garry, attorney representing Retail Service Dealers' Association, was also heard to the same effect.

Ray Vanderford was heard in rebuttal.

Passed for Printing.

Whereupon, on motion of Supervisor Gallagher, the second of the foregoing resolutions was *passed for printing* by the following vote, to-wit:

Telegram in re Tax Exempt Securities Legislation.

The following was presented by Supervisor Marks and read by the Clerk:

Los Angeles, Cal., February 23, 1929.

Hon. Milton Marks, Board of Supervisors, San Francisco, California.

Careful investigation confirms statement banks have included all holdings of tax exempt securities—municipal, State and national—in their assets in computing capital, surplus and undivided profits for imposition of share tax since 1910. Confirmation obtained from Secretary Pierce, State Board of Equalization; Mr. Elliott, Security Bank, and others. Also refer you to Herbert W. Clark, who has undoubtedly given legal opinion. Change to tax measured by net income involves

substantial reduction in tax of banks, thereby actually decreasing burden on holdings of municipal securities.

ALEXANDER R. HERON.

Motion.

Supervisor Marks moved that the Finance Committee get the advice of a good tax consultant expert as to the full meaning of the legislative bill and its effect on San Francisco's interests.

Report of Streets Committee in re Changing Name of College Terrace.

The following was read and ordered *filed*:

February 9, 1929.

To the Honorable Board of Supervisors.

Gentlemen: Your Committee on Streets and Commercial Development recently received a petition requesting that the name of either College terrace or College avenue be changd, and stating that there was confusion and annoyance in mail and delivery matters caused by the similarity in names. At the hearing before the committee only one person appeared in favor of the change, while a large number of persons protested. In this connection the Board of Supervisors, on May 7, 1914, changed the name of College terrace to Copeland terrace, and on December 21, 1915, changed it back to College terrace.

In view of the fact that a large majority of the residents and property owners object to any change in name of either of these streets, your committee denied the petition and recommends that the Board concur in their action.

Respectfully submitted,

ANDREW J. GALLAGHER,
ALFRED RONCOVIERI,
FRED SUHR,
Committee on Street and Commercial Development.

J. S. DUNNIGAN, Clerk.

Also, to State Senators Victor J. Canepa, Roy Fellom and Daniel C. Murphy.

SENATE BILLS.

Old Age Pension.

The following bill was taken up and explained by the City Attorney: Senate Bill No. 10. Introduced by Senator Murphy. Provides for

an old age pension and for the appointment by the Governor of a commission of three members to administer the pension fund. The commission shall appoint a superintendent at a salary not to exceed $5,000 a year, and such other assistants as may be necessary. This commission is to be supplemented by a county pension board consisting of three persons, also appointed by the Governor. The local board shall, with the approval of the Superintendent of the State Commission, appoint one or more local investigators at a salary not to exceed $2,000 per anum. The bill provides that a pension shall be fixed for aged persons, with due regard to the condition in each case, but in no case to exceed $1 per day. Bill also provides that upon the death of the beneficiary $100 shall be allowed as funeral expenses. The bill further provides a fund of $500,000 to cover pension payments during the next two years, and $25,000 for administration expenses. Further provides that all expenses incurred by county or city and county boards of administration, and investigation, and their salaries shall be paid by the county or city and county in the same way as other expenses of the county are paid.

Supervisor McSheehy moved approval of the foregoing, seconded by Supervisors Marks and Gallagher.

Supervisor Marks moved as a substitute that Chief Assistant Clerk Rogers be instructed to ask Senator Murphy, the author of the bill, whether or not he desired the Board of Supervisors to recommend same. Substitute *carried.*

Explanation of Vote.

Supervisor Andriano requested that he be excused from voting on the ground that he did not deem it his duty to endorse a general measure of that kind that does not affect San Francisco particularly.

Employment of Aliens.

Senate Bill No. 112. Introduced by Senator Hurley. Prohibits the employment of aliens on all public work of the State, county, or city and county, and defines the term "alien" as one who is not a born or fully naturalized citizen of the United States.

Motion.

Supervisor Marks moved opposition to the measure unless it is in conformity with our Charter.

Amendment *accepted.*

Chief Assistant Clerk Rogers directed to confer with Senator Hurley.

Supervisors Andriano and Stanton requested to be recorded as voting no. *So ordered.*

Whereupon, *Supervisor Marks* moved that the Board go on record as opposed to the measure.
Supervisor Andriano voted *no*, explaining his vote by saying that he intended to vote no on every bill that he did not consider properly before this Board and upon which he should not express any opinion, and this, he said, is one such bill.

Disapproved.

The following bills were *disapproved*:
Senate Bill No. 25. Introduced by Senator Handy. An Act to restrict the running of dogs at large, and providing for the issuance

Authorizing the Mayor to Execute an Agreement With the Spring Valley Water Company in re Property Required for Widening of Junipero Serra Boulevard.

Also, Bill No. 8873, Ordinance No. 8369 (New Series), as follows:

Authorizing and directing the Mayor, in the name and on behalf of the City and County of San Francisco, to execute an agreement with Spring Valley Water Company for escrow and immediate possession of property required for the widening of Junipero Serra boulevard and the widening and extension of Nineteenth avenue.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Mayor is hereby authorized and directed to execute, in the name and on behalf of the City and County of San Francisco, an agreement with Spring Valley Water Company, a corporation, providing for escrow and immediate possession, as per the following terms:

"This agreement, made and entered into this ..... day of February, one thousand nine hundred twenty-nine, by and between Spring Valley Water Company, a corporation organized and existing under and by virtue of the laws of the State of California, whose principal place of business is in the City and County of San Francisco, State of California, and hereinafter designated as the "Water Company," the party of the first part, and City and County of San Francisco, a municipal corporation, hereinafter designated as the "City," the party of the second part, witnesseth:

Whereas, on the 10th day of October, 1928, the Water Company offered to convey to the City, without cost, certain lands in the City and County of San Francisco required by the City for the widening of Junipero Serra boulevard and the widening and extension of Nineteenth avenue, consisting of approximately 23 acres, a portion of which lands are subject to the present Junipero Serra boulevard easement and the easement for the "M" line of the Municipal Railway, and to sell to the City the remaining 28.79 acres required for the said projects for the sum of one hundred fifty-one thousand sixty and 00/100 dollars ($151,060.00), and the payment by the City to the Company of the sum of twenty thousand three hundred ninety-five and 48/100 dollars ($20,395.48), for account of damages to adjoining lands, making a total of $171,455.48, subject to certain terms and conditions mentioned in said offer, one of said conditions being as follows:

"The City shall, by ordinance duly and regularly to be passed by the Board of Supervisors, change the classification applicable to the land bounded by Sloat boulevard on the north, by Junipero Serra

boulevard on the east, by Old Ocean House road extended on the south, and by Nineteenth avenue extended on the west, to the end that such property may be classified as a commercial district within the provisions of Section 5 of Ordinance No. 5464 (New Series) of the City and County of San Francisco. The Water Company shall not be obligated to convey to the City the properties hereby offered for sale unless and until such ordinance shall have been passed by the Board of Supervisors and shall have become of full force and effect. At the election of the Water Company the deed whereby the said properties shall be conveyed to the City may provide, by way of express condition subsequent, that in the event that at any time following such conveyance the said land referred to in this paragraph shall be so reclassified that the same cannot be used for purposes permitted within commercial districts under Section 5 of said Ordinance No. 5464 (New Series), title to the properties so conveyed shall immediately and ipso facto revert to the Water Company"; and

Whereas, by Resolution No. 50304 (New Series), adopted January 21, 1929, the Board of Supervisors accepted said offer and agreed to all of the terms and conditions mentioned in said offer; and

Whereas, the Board of Supervisors, on January 21, 1929, passed to print an ordinance, and on January 28, 1929, finally adopted said ordinance, commercially zoning the land mentioned in the condition specified above; and

Whereas, it now appears that said ordinance is invalid, for the reason that on January 17, 1929, the State Legislature of the State of California, by joint resolution, ratified a Charter amendment passed by the people of San Francisco at the election held in November, 1928, which Charter amendment removed from the Board of Supervisors the authority to change the zoning and placed the authority for the same in the hands of a City Planning Commission; now, therefore, in consideration of the mutual covenants herein contained, and of the conformance thereto by each of the parties hereto, the said parties mutually promise and agree as follows:

First: The Water Company agrees to execute a deed conveying to the City the parcels of land mentioned in the written offer of October 10, 1928, free and clear of all encumbrances, and deposit the same in escrow with the California Pacific Title & Trust Company, or other escrow holder agreeable to both parties hereto, with instructions to the said Company or escrow holder to record the same upon receipt from the City of the said mentioned sum of one hundred seventy-one thousand four hundred fifty-five and 48/100 dollars ($171,455.48), for the account of the Water Company, and the deposit with said Company of a certified copy of the order of the said City Planning Commission changing Ordinance No. 5464 (New Series), so as to place certain portions of the Spring Valley Water Company's properties in the commercial zone, said properties to be as those shown on the map attached hereto and marked Exhibit "A"; and further, that the Mayor of the City and County of San Francisco shall sign said ordinance, and the time for protest and appeal shall have elapsed, or in the event of appeal the City Planning Commission resolution has been affirmed and all matters and things have been done to classify said mentioned property in the commercial zone.

Second: The Water Company further agrees upon the deposit with the Title Company or escrow holder previously agreed upon of the above-mentioned sum, to immediately give possession to the City of the property mentioned in the above deed, and it is hereby further agreed by both parties that the granting of said permission does not constitute a waiver on the part of the parties of the first part, and that any action hereinafter filed may be prosecuted to final judgment. Said Water Company shall have the privilege of arranging that said deposit shall bear interest and said interest shall be payable to the Water Company upon consummation of this transaction; provided, in the event of failure of said rezoning and consequent necessity of

establishing the price to be paid by the City to the Water Company for said land by eminent domain or other proceedings, said deposit shall remain until transfer of title pursuant to such proceeding, and the interest, if any, allowed on said deposit shall be paid to the Water Company in addition to principal purchase price fixed in said proceeding.

Third. The Water Company further agrees that as soon as the City Planning Commission is regularly constituted that it will make application to said City Planning Commission for the zoning as shown on the map attached hereto and marked Exhibit "A", and will use every endeavor to secure action on the same.

Fourth: The City agrees to deposit with the California Pacific Title & Trust Company, or escrow holder previously agreed upon, the above-mentioned sum in payment for the above-mentioned deed and accept immediate possession of the land mentioned in said deed subject to the following conditions:

(A) That it is distinctly understood and agreed that the payment of the above-mentioned sum is contingent upon the zoning mentioned above, and that in the event that the said City authorities do not pass the necessary changes in the zoning law that the offer to purchase said property at the price herein agreed shall become null and void, and the permission to occupy the property shall not be prejudicial in any way, either at law or in equity, to whatever rights to compensation the Water Company may have resulting from the acquisition of the said properties by the City, nor shall the said price herein specified be used by either party hereto as an evidence of the value of said property.

(B) In the event that the City Planning Commission does not agree to the proposed zoning change within one hundred twenty (120) days from date hereof, and the compensation for said properties shall not be agreed upon within thirty (30) days thereafter, the City agrees within thirty (30) days thereafter to commence and file the necessary eminent domain proceedings by the City for the acquisition of the said properties and the Water Company shall have the right to interpose such defense to action as it shall deem proper, notwithstanding this agreement.

(C) In the event of failure of the City to file said eminent domain proceedings within the thirty (30) day period above provided for, or in the event such proceedings are so filed and thereafter abandoned by the City, the Water Company may thereupon commence and prosecute to final judgment an action upon this contract for the determination of the reasonable value of said land, and upon such judgment becoming final the amount so fixed shall be paid by the City to the Water Company concurrently with the transfer of title by the Water Company to the City.

In witness whereof, the party of the first part has caused these presents to be executed in duplicate by its President first thereunto duly authorized and its corporate seal to be affixed thereto, and the party of the second part has caused these presents to be duly executed in duplicate by its Mayor first thereunto duly authorized and its corporate seal to be affixed and duly attested by the Clerk of its Board of Supervisors, all as of the day and year first hereinabove written.

Senate Bill No. 126, in re Telephone Corporations, Endorsed.

Supervisor Stanton presented:

Resolution No. 30535 (New Series), as follows:

Whereas, there is now pending before the United States Senate a resolution introduced by United States Senator Hiram W. Johnson of California, known as Senate Resolution No. 126, and which has been referred to the Committee on Interstate Commerce, which resolution reads as follows:

"Resolved, That a committee of five members of the Senate be appointed by the President thereof, and be hereby empowered and directed to inquire into and report upon: (1) the growth of the capital assets and capital liabilities of public-utility corporations supplying telephone communications, however such telephone communications may be accomplished and/or produced, of corporations holding the stocks of such public-utility corporations, and of nonpublic-utility corporations owned or controlled by or affiliated with such holding companies; (2) the method of issuing, the price realized or value received, the commissions or bonuses paid or received, and other pertinent facts with respect to the various security issues of all classes of corporations herein named, including the bonds and other evidences of indebtedness thereof, as well as the stocks of the same; (3) the extent to which holding companies or their stockholders control or are financially interested in financial, engineering, construction, and/or management corporations, and the relation, one to the other, of the classes of corporations last named, the holding companies, and the public-utility corporations; (4) the services furnished to public-utility corporations by holding companies and/or their associated, affiliated, and/or subsidiary companies, the fees, commissions, bonuses, or other charges made therefor, and the earnings and expenses of such holding companies and their associated, affiliated, and/or subsidiary companies; and (5) the value or detriment to the public of holding companies owning the stock or otherwise controlling such public-utility corporations immediately or remotely, with the extent of such ownership or control, and particularly what legislation, if any, should be enacted by Congress to correct any abuses that may exist in the organization or operation of such holding companies.

"The committee is further empowered and directed to inquire and report whether, and to what extent, such corporations or any of the officers thereof or anyone in their behalf or in behalf of any organization of which any such corporation may be a member, through the expenditure of money or through the control of the avenues of publicity, have made any and what effort to influence or control public opinion on account of municipal or public ownership of the means by which telephone communication is accomplished and/or produced, or to influence or control elections.

"That the said committee is hereby authorized to sit and perform its duties at such times and places as it deems necessary or proper, and to require the attendance of witnesses by subpoenas or otherwise; to require the production of books, papers and documents; and to employ counsel, experts and other assistants, and stenographers, at a cost not exceeding $1.25 per printed page. The chairman of the committee, or any member thereof, may administer oaths to witnesses and sign subpoenas for witnesses; and every person duly summoned before said committee, or any subcommittee thereof, who refuses or fails to obey the process of said committee, or appears and refuses to answer questions pertinent to said investigation, shall be punished as prescribed by law. The expenses of said investigation shall be paid from the con-

tingent fund of the Senate on vouchers of the committee or subcommittee, signed by the chairman and approved by the Committee to Audit and Control the Contingent Expenses of the Senate.

"The committee or any subcommittee thereof is authorized to sit during the sessions or the recesses of the Senate, and until otherwise ordered by the Senate."

And whereas, the cities of San Francisco, Oakland, Alameda, Berkeley and other cities on the east side of San Francisco Bay are interested in and opposing the application of The Pacific Telephone and Telegraph Company for an increase in telephone rates, which application is now pending before the Railroad Commission of California, and that said The Pacific Telephone and Telegraph Company is a subsidiary of and controlled by the American Telephone and Telegraph Company of New York, which latter company refuses to submit itself to the jurisdiction of the Railroad Commission of California, and that the State Legislatures of Oregon and Washington have unanimously adopted a memorial to the Senate of the United States, petitioning the Senate to adopt the United States Senate Resolution No. 126 and to conduct the investigations in accordance with the terms thereof; and

Whereas, it seems to the best interests of the people of San Francisco and the cities on the east side of San Francisco Bay and all cities in California that an investigation be made by the United States Government of all corporations supplying telephone communications, with a view to determining and fixing just and equitable rates for telephone service; now, therefore, be it

Resolved, by the Board of Supervisors of the City and County of San Francisco, that the Senators and Assemblymen representing the City and County of San Francisco in the session of the State Legislature now pending at Sacramento, be requested and are hereby requested and urged to cause to be passed and adopted by the present Legislature of California a memorial similar to what is set forth in this resolution, requesting the United States Senate to pass Senate Resolution No. 126 and to forward copies of such memorial to each of the United States Senators and members of the House of Representatives representing the State of California. Be it

Further Resolved, That copies of this resolution be immediately forwarded by the Clerk of this Board to each Senator and member of Assembly representing the City and County of San Francisco at the current State Legislature.

Tax on Earned Incomes.

Supervisor Havenner presented:

Resolution No. 30541 (New Series), as follows:

Whereas, the basic principles of the American Government uphold just and equitable taxation as of the highest importance to its welfare, and as an essential and inviolable right of its citizens; and

Whereas, the existing tax on earned income obviously is inequitable and unjust, since it imposes an unfair and heavy burden on professional men and women, and all others who depend for their living on wages, salaries, fees and other amounts of compensation for personal services actually rendered; and

Whereas, it is obvious that the failure of the Federal Income Tax Law to properly differentiate between the two classes of income, earned and unearned, causes grave injustice; and

Whereas, the earned income of an individual measures the value of

his service to the community, and is received in return for personal services, mental or physical, actually performed, as distinguished from incomes from investment or from property; and

Whereas, it is manifestly unreasonable and wrong that earned income should pay the same rate of taxation as permanent property and invested capital; and

Whereas, a heavy tax on earned income tends to discourage and retard enterprise, progress and development, since, obviously, it is a direct tax on labor and penalizes industry and thrift; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, California, does hereby memorialize Congress, and does urge that a reduction of 50 per cent be made in the tax rate on earned incomes below the tax rate on unearned incomes.

Amends Section 24 by providing that when any installment of the assessment exceeds 3 per cent of the assessed valuation of the property, that the Board of Directors of the District must, on the request of the Board of Supervisors of the County in which the property is situated, increase the number of the annual assessments so the amount of each annual installment will be less than the 3 per cent. The amendment decreases the amount of the limitation from 5 to 3 per cent and gives to the Board of Supervisors of the County the right to compel the directors to increase the number of assessments. As the section now stands, this right is discretionary with the directors of the district. Section 29 permits boards of supervisors to appropriate money received by the county under the provisions of the California Vehicle Act for the payment of the amount of any installments due for road improvements by the county, or they may levy a special tax for that purpose. Provides for the refund to any municipality upon bonds outstanding on November 8, 1910, of all amounts paid on principal or interest of said bonds in any year from the revenues of such city, other than taxes. This board may retain a clerk and the members of the board and the clerk shall receive such salary as may be determined by the board of supervisors. It is made the duty of this board to inquire into the antecedents, character, family history, etc., and the cause of the mental sickness or nervous trouble of all persons seeking medical advice and help from said board. The board is given the power to recommend that any person examined shall be committed to any public institution within the department of institutions. Bill No. 645. Introduced by Mr. Mixter. Authorizes the Boards of Supervisors of several counties to levy a special tax not to exceed 4 cents on the hundred for advertising, etc. While the bill does not appear to be a companion bill to the bill on the same subject in the Senate, it does really cover the same matter and is already covered by Subdivision 33 of Section 4041 of the Political Code.

City Attorney's Opinion—Power of Board of Supervisors to Refuse Application for Permits by Transferees of Shell Oil Company.

March 4, 1929.

Board of Supervisors.

Gentlemen: Your communication of February 28th, together with a copy of a proposed resolution regarding automobile supply station permits, are at hand. You ask my opinion as to the legality of action of your Board in denying the applications of designated persons for transfer of permits to conduct automobile supply stations from the Shell Oil Company, the present permitee, to themselves respectively.

Opinion.

The ordinance under which your Board grants permits to conduct automobile supply stations is Number 2659 (New Series), and it specifically designates all the rules, regulations and requirements necessary as conditions precedent to the issuance of the right to engage in said pursuit.

A reading of the ordinance indicates that there is no personal qualification of the applicant for the permit necessary. But the determinative factors for the issuance of the permit are, first, a willingness and agreement of the applicant to abide by the provisions of the ordinance; and, secondly, certain physicial standards must exist, as the proximity of the station to certain character of buildings; and,

thirdly, the location of the station, in the judgment of your Board, must not be particularly hazardous to the general public.

An analysis of the ordinance thus extends to your body only one ground for the exercise of discretion, and that is in reference to the location of the station from a viewpoint of public safety.

Former City Attorney Honorable Percy V. Long, on March 25, 1915 (Opinions of the City Attorney, 1912-1916, page 788) had occasion to interpret this ordinance, at which time the language concerning discretion as to location from a consideration of public safety was not a part of the ordinance, and it was his determination that the language as to granting permits by your Board was mandatory. In other words, there was nothing in the ordinance which gave you a discretionary power as to the issuance of a permit when the applicant brought himself within the rules and provisions of the act.

If your Board has no objection to the automobile supply stations being conducted, by reason of the ordinary hazards which attend a business of this character, at the location designated in the resolution, by the Shell Oil Company, you cannot refuse to grant to the transferees of said company permits to conduct the same stations. A refusal to grant applications for permits to the transferees, and at the same time permit the Shell Oil Company to operate the stations at the identical locations in dispute, would be absolutely discriminatory and arbitrary.

You are therefore advised that if in the judgment of your Board there was no valid reason why the permits in question should not have been issued to the oil company, there can now be none as to their being transferred to the respective transferees mentioned.

Respectfully,

(Signed) JOHN J. O'TOOLE,
City Attorney.

Transfer of Shell Oil Station.

Communication, from Jos. A. Garry, attorney for Retail Service Station Dealers' Association, referred to wide police powers granted to municipal corporations under Section 2, Article XI, of the Constitution, and declaring that notwithstanding the City Attorney's opinion, the recommendation of the Fire Committee should be adopted and the application of the Shell Oil Company denied.

Whereas, on the fifth day of June, 1928, said resolution was duly approved by the Mayor of the City and County of San Francisco; and

Whereas, Henry Stoneson and Hazel Stoneson, his wife, owners of lands adjacent to or fronting on the aforesaid alley so closed and abandoned, have offered to convey or cause to be conveyed to the City and County of San Francisco property for the opening of a certain

alley lying in Block 3005-C, in lieu of said alley so closed and abandoned; and

Whereas, said Henry Stonesen and Hazel Stonesen, his wife, pursuant to their aforesaid offers, have caused to be made, executed and delivered to said City and County of San Francisco good and sufficient conveyances vesting in said City and County of San Francisco, for street purposes, the title to the parcel of land hereinafter more particularly described, in lieu of said alley so closed and abandoned as hereinbefore recited; and

Whereas, the said parcel of land so conveyed to said City and County of San Francisco as a new alley in lieu of said alley closed and abandoned as aforesaid, is more particularly described as follows, to-wit:

Beginning at the point of intersection of the northerly line of Hazelwood avenue with the west line of Lot 16 of Block 3005-C, as shown on map of "Blocks 3004-B, 3005-B, 3005-C, 3005-D and part of Blocks 2973, 3038 and 3054, Westwood Highlands, San Francisco, Cal.," which was filed October 6, 1927, in Map Book "L", pages 50 to 53, inclusive, in the Recorder's office of said City and County of San Francisco; thence north along the west line of Lots 16 and 27 of said Block 3005-C, 334.34 feet to the southerly line of Cresta Vista drive; thence north 75 deg. 54 min. east along said southerly line of Cresta Vista drive 9.955 feet; thence northeasterly along said southerly line of Cresta Vista drive along the arc of a curve to the right with a radius of 266 feet, tangent to the preceding course 10.616 feet to a point which is distant east 20 feet at right angles from the west line of said Lot 27 produced north; thence south, parallel with the west line of said Lots 27 and 16, 326.266 feet to the northwesterly line of Los Palmos drive; thence southwesterly along said northwesterly line of Los Palmos drive along the arc of a curve to the right whose center bears north 40 deg. 54 min. 58 sec. west 84 feet from last named point, 23.867 feet to the point of beginning; being the most westerly 20 feet of Lots 16 and 27 of said Block 3005-C.

SPECIAL ORDER—11 A. M.

Payment on Contract for Improvement of Great Highway From Lincoln Way to Sloat Boulevard.

The following matter was taken up:

Resolution No. ———— (New Series), as follows:

Resolved, That the sum of $40,800 be and the same is hereby authorized to be expended out of the Boulevard Bond Fund in payment to Granfield, Farrar and Carlin; being sixth payment on Contract No 8 for the improvement of the Great Highway from Lincoln way to Sloat boulevard (claim dated Feb. 20, 1929).

Referred to City Attorney.

Whereupon, Supervisor McSheehy presented and read:

Resolution.

Whereas, on July 11, 1928, bids were called for the improvement of the Great Highway between Lincoln way and Sloat boulevard. The improvement consists of two roads, 50 feet wide and 10,000 feet long; payment for this work to be made out of the 1927 Boulevard Bond Issue. Eight bids were received on twenty-three items submitted. The number of pounds of steel, tons of asphalt, square feet of macadam and every other item of the twenty-three were given in detail. The bids ran all the way from $131,231 to $243,931, a difference of $116,610, between the high and low bid. The contract was awarded to the lowest bidder at $131,321, duly signed and work started.

Whereas, on November 8, 1928, Resolution No. 104111 (Second Series), passed by the Board of Public Works, was transmitted to the Clerk of the Board of Supervisors and referred to the Streets Committee, calling for an expenditure of $93,877 out of the Boulevard Bond Issue of 1927, on Contract No. 8, Great Highway. The Streets Committee recommended that the Finance Committee set aside the sum of $93,877 for the work as specified in the resolution of the Board of Public Works, and upon their recommendation the Finance Committee recommended the same to the Board of Supervisors and Resolution No. 30158 (New Series) was passed on December 17, 1928.

Whereas, Section 6 of Article XIV of the Charter states that no work shall bet let that costs over five hundred ($500) dollars without advertising for bids. In this case the Charter was entirely ignored. The contract was changed, certain items were omitted and others added, which increased the cost to $221,200, as stated in the Engineer's letter of February 20, 1929.

Whereas, the letting of the contract for $131,321 and changing the

same created a condition whereby a contractor is allowed an extra of $93,877, or 71 per cent, for which he subet to two firms, for what amount I do not know. This is positively wrong and is taking advantage of the Board of Supervisors and the Mayor, who have to depend on the Engineers' Department of the Board of Public Works to see that the Charter is lived up to and that all contracts are carried out. It is impossible for the Supervisors to check all work that is done by the City; they have to depend on the various departments and on their recommendations.

Resolved, That the sixth payment of $40,800 due the contractors be paid. There is still due them after this payment, according to the Engineer's letter of February 20, 1929, $55,300.

Further Resolved, That this Board of Supervisors censure the Engineering Department of the Board of Public Works for the letting of half-baked contracts, especially after having gone into it so thoroughly and defining all the material that shall go into same. There is no excuse that they did not know that it would take two inches more of rock, concrete gutters and two inches of Topeka topping to finish the entire job. They should have let one contract covering all the work. If we countenance extra work of this kind we will discourage all bidding on public works, and as Supervisors, the custodians of public funds, will find it almost impossible to estimate the cost of any public improvements.

I trust that this Board will adopt this resolution, place the same on record and have copies transmitted to the Mayor and the Board of Public Works.

Motion.

Supervisor Marks moved that the foregoing resolution be referred to the City Attorney.

So ordered.

Report of Legislative Committee on Matters Referred.

Supervisor Marks, chairman of the Law and Legislative Committee, reported on matters referred to his committee as follows:

Gilmore bill respecting the supplying of uniforms to persons employed by the State or City where the cost thereof amounts to more than three days' pay. Conference had with Mr. Rogers and with Mr. Gilmore. Mr. Gilmore declared it was not his intention to have municipal employees, policemen, firemen or carmen included. Will amend bill so that San Francisco will not be affected.

Assembly Bill No. 316 (Williamson). Respecting transfer of Channel street property. Mr. Rogers suggests that the matter be referred to Mr. Clyde Healy, Assistant City Engineer. Whereupon, Supervisor Marks moved that Assembly Bill No. 316 be referred to Mr. Healy for investigation and report next Monday. Streets Committee also agreed to report on subject matter next Monday.

Assembly Bill No. 100 (Gilmore). Places tidelands in control of the Harbor Commission. The question was raised whether or not this measure would interfere with our Harbor Control Bill. Recommends no further action. Supervisor Schmidt moved that Mr. Rogers be requested to hold up the Gilmore bill until the Harbor Control Bill is passed and until he hears further from the Board of Supervisors.

Assembly Constitutional Amendment No. 2. Taxation of municipally-owned utilities. Supervisor Marks reported that in all likelihood the author will not press the bill in the Legislature, at least that is his information. Mr. Rogers has been requested to advise the Board if otherwise.

Whereupon, the following bill was presented by the City Attorney and copies ordered sent to Messrs. Monroe, Andrews, Ainsworth and McAtee. Thereupon, the subject matter was *made a Special Order of Business for 3 p. m. next Monday*:

Senate Bill No. 524 (as amended).

Introduced by Senators Murphy, Crowley, Canepa, Gray, Tubbs, Maloney and Fellom (by request), January 17, 1929. Referred to Committee on Commerce and Navigation.

An act to aid commerce and navigation by authorizing certain improvements in and about South Basin and South Basin Canal and as a means thereof creating a reclamation district to be called and known as the "South Basin-South Basin Canal Reclamation District," fixing the boundaries thereof, providing for the management and control thereof, vesting certain powers therein, and authorizing a method for the reclamation of the lands of said district; and to aid and assist such works of reclamation; granting to the City and County of San Francisco and its successors any title of the State in or to any public highways lying in said district with certain reservations; and dissolving any reclamation district wholly situate within the boundaries of said South Basin-South Basin Canal Reclamation District.

Sec. 2. The said South Basin-South Basin Canal Reclamation District shall comprise those certain lots, pieces and parcels of land, streets and canals or portions thereof lying within the City and County of San Francisco, State of California, and within that territory whose exterior boundaries are described as follows:

When said trustees shall have obtained said plans and specifications showing the nature and character of said reclamation work to be done, together with the estimate of the total cost thereof, they shall make an apportionment of the said estimated cost of said work against the property in said district and the estimated amount of governmental aid which may be received in aid of said work to the end that each property owner in said district shall be in a position to ascertain the estimated cost of said work to be done and the proportion thereof to be charged against each particular parcel of property affected; provided, however, that no error in said estimate shall invalidate any assessment thereafter levied against said property by virtue of the provisions of this act. That for the purpose of advising the owners of the property within said reclamation district as to the estimated cost of said work to be done the said trustees shall keep on file in the office of said district all of said plans, specifications and estimates of cost, together with the estimated cost of said work to be borne by each parcel of real property in said district, all of which shall be open for inspection by any interested property owner, his agents or representatives, and within ten days after said plans, specifications and estimates are placed in said office of said district for inspection and examination, the said trustees shall cause to be published once a week for four successive weeks in a newspaper of general circulation, published in the City and County of San Francisco, a notice which shall contain a statement of the filing of said plans, specifications and estimates, and that the same shall be open for inspection and examination at the principal place of business of said district, specifying the same, for a period of sixty days from and after the date of the first publication of said notice. The authority of any agent or agents shall likewise be in writing and acknowledged likewise and shall accompany any protest filed on behalf of any property owner or woners, which protest is not made by said owners in person. The cost of all investigations, plans, specifications and estimates made

by said trustees shall create no lien or charge against any property within the said proposed district, unless said district shall thereafter be fully organized and trustees elected as hereinafter provided.

(c) *Election of Trustees.* If the owners of more than one-half of the property within the said district, measured by area, shall not protest against the formation of said district, the said trustees appointed by the Governor, as aforesaid, or a majority of them shall cause an election for trustees of said district to be called and held pursuant to the provisions of Section 3491 of the Political Code, and the persons elected at said election shall hold office for a term of four years and shall be deemed to be the successors of the trustees appointed by the Governor, as hereinbefore set forth, and shall perform all of the duties and shall have all of the powers of the trustees of the reclamation district.

(d) *Aid From San Francisco.* The Board of Supervisors of the City and County of San Francisco may appropriate to the said trustees appointed by the Governor as in this section provided, and cause to be paid to said trustees from the General Fund of said City and County, an amount sufficient to defray the cost of obtaining the preliminary plans, specifications and estimates provided for in this section, and said sum or sums so appropriated shall be used for said purpose and for none other.

The said district may secure material to make such fills by contract or agreement with the United States and State of California and any department, bureau, agency or authorized officer or agent of either or both, including the Board of State Harbor Commissioners of the State of California, and with the City and County of San Francisco, or any department, bureau, agency, or authorized officer or agent thereof, or with any other person, firm or corporation, and to secure material to make such fills, the said district may provide for the dredging and widening of that portion of South Basin and South Basin Canal lying within the exterior boundaries of said district, provided its plans for derdging or widening or in any way affecting said portions of South Basin and South Basin Canal are first submitted to and approved by said Board of State Harbor Commissioners. The Legislature of the State of California hereby declares that it is necessary for the reclamation of lands of said district not only that the proper drains, canals, sluices, bulkheads, water gates, levees and embankments and other usual works be constructed and maintained but that the lands thereof in private ownership and the streets lying therein be filled and raised to the official street grades as the same are now or may be hereafter legally established.

Sec. 11. The board of trustees of said district shall have power to adopt a plan or plans for the reclamation of said district, and thereafter at any time in its discretion may modify or change such original plan or plans, or adopt new, supplemental or additional plan or plans, when in its judgment the same shall have become necessary. The said district shall have power to acquire by lease, purchase, agreement, condemnation or other legal means, all property, easements, rights of way and the right to take material for the consturction of all works necessary for the accomplishment of its object, and the right to contract for all necessary labor, supplies, material and machinery and to lease or acquire by purchase, agreement, condemnation or other legal means, any works of reclamation, including drains, canals, sluices, bulkheads, water gates, levees, embankments and pumping plants which in the opinion of said board of trustees are or may be necessary to the general plan or plans decided upon by said trustees for the reclamation of said lands. The said district shall also have the right and power to join with other reclamation districts, levee districts, or swamp land districts, with the United States, the State of California, the City and County of San Francisco, or any of their departments, bureaus, agencies or authorized officers or agents, with the said Board of Harbor Commissioners, or with other persons in the construction and maintenance of reclamation works and to contract for the same

and to do all other acts incident or necessary, in the opinion of said board of trustees, to the reclamation of the lands of said district. Except as otherwise provided in this act, the said South Basin-South Basin Canal Reclamation District and its trustees shall be subject to and controlled by the provisions of the following sections of the Political Code of the State of California, viz., Sections 3453, 3454, 3455, 3456, 3457, 3459, 3460, 3461, 3462, 3463, 3464, 3465, 3466, 3466½ (both sections bearing that number), 3471, 3476, 3480, 3480½ (both sections bearing that number), 3484, 3489a, 3491 and 3493, and all other provisions of said Political Code relating to reclamation districts, and said South Basin-South Basin Canal Reclamation District and its board of trustees shall have all the rights and privileges and may exercise all the powers any reclamation district or its trustees may have or exercise under said provisions of said Political Code, or under any general laws of the State of California relating to reclamation districts, and to provide for the costs of the works of reclamation and the other authorized expenses of said South Basin-South Basin Canal Reclamation District assessments may be made and levied upon the lands in said district and become a charge and lien thereon, warrants may be drawn and issued, and a bonded indebtedness may be created and bonds therefor may be executed, sold and issued in the manner authorized by said provisions of said Political Code or by the provisions of said general laws relating to reclamation districts.

Sec. 12. Nothing contained in this act shall authorize the extension of South Basin and South Basin Canal into or through Third street or any part thereof, or the location thereof, if projected upon its present course, or authorize the charging or assessment of State or municipal property for the costs of the reclamation works authorized by this act or for any of the expenses of said district, or authorize the filling or raising of any streets lying in said district to the official street grades as the same are now or may be hereafter legally established, unless the plans of said district therefor are first submitted to and approved by the Board of Supervisors of said City and County of San Francisco. Nor shall anything contained in this act affect the power of said City and County of San Francisco to open, extend, widen, pave, grade or otherwise improve or to close, abandon or otherwise dispose of any public highway in said district in the manner authorized by law.

Sec. 13. Any reclamation district wholly situate within the boundaries of said reclamation district is hereby dissolved, except for the purpose of liquidation, if such be necessary, and the disposition of its property, if any there be, and for this purpose only is the existence of such a district continued. Any land situate within the boundaries of South Basin-South Basin Canal Reclamation District is hereby excluded from any such reclamation district.

Sec. 14. The board of trustees of said South Basin-South Basin Canal Reclamation District may commence a proceeding in the Superior Court of the State of California in and for the City and County of San Francisco to determine the legality of the existence of said district and may prosecute such a proceeding to a final judgment therein in the manner authorized by the provisions of Section 3452 of the Political Code of the State of California, and the other laws of the State of California applicable to such a proceeding.

Sec. 15. Communication from San Francisco Convention & Tourist League.

The following was read by the Clerk at the request of Supervisor Hayden:

March 11, 1929.

Memorandum to Hon. Jesse Colman, Supervisor.

Dear Mr. Colman: At this morning's meeting of your Board, doubtless there will be some discussion of a suggestion made in the local press that the City might honor passengers making stop-over at our port, en route on the de luxe world-round cruises, by sending a band to enliven their enjoyment when entering our hospitable harbor.

While we have not been able to send a band, we have seen to it that each passenger was handed our booklet "San Francisco Invites You," with an appropriate imprint on the cover, signifying in a more or less personal manner San Francisco's wish to have them in our City.

You will find attached copies of booklets used in connection with trips by the "Belgenland" and "Empress of Australia." In the case of the "Belgenland" we serviced the passengers at the Port of Los Angeles and our Honolulu friends will see that the "Empress of Australia" passengers are similarly honored as they sail from Hilo.

We have been doing this for sometime and find a very pleasant reaction from the passengers. The cruise directors in each case have cooperated with us and believe this plan enhances the memories of San Francisco in the minds of such travelers.

If you would call this to the attention of the Board during the discussion of the matter it will give the members and the public an idea that we have striven to do our duty by the stranger within our gates.

MALCOLM A. FRASER,
Secretary-Manager,
San Francisco Convention & Tourist Bureau.

Relative to Creation of Obligations by Court Orders.

Supervisor Havenner declared, in connection with the foregoing, that it was impossible for the Finance Committee to handle budget fund and the General Fund in conjunction with the judicial department of the City. An impossible condition, he said, is created by the arbitrary power exercised by judicial authorities through court orders incurring expenses that cannot be foreseen and provided for in budget making.

Supervisor Marks moved that the Clerk be directed to call the matter to the attention of the Presiding Judge of the Superior Court for his recommendation to this Board and that the subject be held in abeyance until wet get an answer.

Supervisor Gallagher moved that the chairman of the Law and Legislative Committee take the matter up with the head of the City ad-

ministration and the Judicial Council, calling attention to the condition due to the arbitrary powers vested in the judiciary and that the Finance Committee employ such talent as may be necessary.

Motion Carried.

As a substitute for the foregoing motions, Supervisor Gallagher moved that the Finance Committee take such steps as may be possible and as soon as possible to bring the situation to the attention of the Legislature.

Motion *carried.* Supervisor Marks voting *no.*

There being no further business, the Board at the hour of 6:25 p. m. adjourned.

The rights granted under this resolution shall be exercised within six months, otherwise said permit shall become null and void.

Whereupon, the following communication was presented and read by the Clerk:

San Francisco, California, March 18, 1929.

To the Honorable Board of Supervisors, City and County of San Francisco, California—Gentlemen:

Statements upon which passage of the Ocean-Keystone service station application were predicated this morning are utter falsehoods.

Opposition to the station has not been withdrawn.

Dr. Samuel Langer, superintendent of the Pacific Hebrew Orphanage, has written a letter stating emphatically that he has not withdrawn his opposition nor will he do so, and the statement to that effect by Mrs. Edna Calhan is erroneous.

The Community News has not withdrawn its opposition, nor will it. Furthermore, the allusion to Gerald F. Dunn's residence is absolutely untrue. Mr. Dunn is not now and never has been a resident of Berkeley. He lives in Ingleside Terraces and has lived there since the first of this year. Prior to that time he has lived in various sections of the city for some time. He acts as an authorized representative of the Community News.

In view of these facts we hereby petition the Honorable Board to rescind its approval of George W. Hilzinger's application for a service station to be located at Ocean avenue and Keystone way.

If further evidence of opposition is needed the Community News will be glad to furnish it if given the time to do so.

Very truly yours,

A. J. CADERO, Publisher, The Community News.

SPECIAL ORDER—10 A. M.

Consideration of report of the Civil Service Committee on salary standardization.

Privilege of the Floor.

William H. Bonor, representing Office Employees' Union, was granted the privilege of the floor and opposed the standardization generally. He asked particularly that the classification junior clerks be abolished and that such positions be classified with senior clerks.

John O'Connell, secretary of the San Francisco Labor Council, entered an emphatic protest against the adoption of the report on standardization, which, he said, classifies and fixes wages without consultation with the crafts affected.

City Attorney O'Toole advised the Board that it could not amend the report. The Charter amendment, he said, provides either for its approval or rejection.

C. D. Mull, representing Electrical Workers, was also heard regarding repairers in the Department of Electricity.

Statement for Record.

Chairman (Supervisor Havenner): I want to say, for the purpose of the record, that the heads of the Building Trades Council, and of other organized crafts, did sit in with the committee and had very extensive hearings, many of the amended definitions which they suggested have been adopted, and that it has been the disposition of the committee always to get the experience of the organized crafts with respect to the definitions for the positions which fall within their jurisdiction. That has been done very extensively. I want that to appear in the record at this time. And if certain omissions have been made, I am sure, as far as the committee is concerned, we would still be willing to recommend amendments which would make them comply with what we believe would be a reasonable definition.

I am merely making the statement for the benefit of the record,

and, as far as we have been able to do, we have consulted with the heads of organized labor with respect to the definitions of these positions that fall within the jurisdiction of the organized crafts. And that is a matter of record, and it can be shown that at extensive hearings we have consulted with them and have made amendments of definitions to comply with their suggestions.

RECESS.

Whereupon, the Board at the hour of 12:55 p. m. took a recess until 2:30 p. m.

Board of Public Works to Prepare Plans, Etc., for Subway in Market Street.

Supervisor Shannon presented:

Resolution No. ———— (New Series), as follows:

Whereas, the rapid progress of our City in recent years, with its steadily increasing population, business and home-building activities, as well as its hotel and apartment house growth, has demanded rapid transportation facilities into the downtown business districts to meet the requirements of the populace; and

Whereas, the operation of numerous car lines combined with the ever growing automobile traffic over the streets of the City, particularly in the business districts, is leading to serious traffic congestion, a hazard to the shopping public and a hindrance to the greater success of business enterprises within these districts; and

Whereas, it is imminent that immediate action should be taken to eliminate such a condition by the building of subways, particularly on and along Market street, the main thoroughfare and business artery of our City, which is now congested, and ever increasingly so, by the operation of many car lines, pedestrian and automobile traffic; therefore, be it

Resolved, That the Board of Public Works be and is hereby requested to prepare plans and specifications with the estimated cost for the construction of a subway in and along Market street from The Embarcadero westerly to Valencia street, and also the estimated additional cost of extending said subway from Valencia street in and along Market street to Castro street, also the cost of constructing such a subway in and along Valencia street from Market street to its intersection with Mission street, to the end that a bond issue for these projects may be prepared for submission to the voters for approval.
